

AP Statistics - Chapter 1A Extra Practice

1. As part of survey of college students a researcher is interested in the variable class standing. She records a 1 if the student is a freshman, a 2 if the student is a sophomore, a 3 if the student is a junior, and a 4 if the student is a senior. The variable class standing is

- A) Categorical B) Numerical C) Quantitatively categorical D) all of the above

3. A particularly common question in the study of wildlife behavior involves observing contests between "residents" of a particular area and "intruders." In each contest, the "residents" either win or lose the encounter (assuming there are no ties). Observers might record several variables. Which of the following variables is categorical?

- A) the duration of the contest (in seconds) B) the number of animals involved in the contest
C) whether the "residents" win or lose D) the total number of contests won by the "residents"

22. At the right is a bar graph of class standing for a seminar containing seven students who are either freshman, sophomores, juniors, or seniors. (The bar for the juniors has been omitted.)

The number of students in the seminar who are juniors is

- A) 1 B) 2 C) 3 D) not able to be determined from the given info

7. In drawing a histogram, which of the following suggestions should be followed?

- A) Leave large gaps between bars. This allows room for comments.
B) The heights of bars should equal the class frequency.
C) Generally, bars should be square so that both the height and width equal the class count.
D) The scale of the vertical axis should be that of the variable whose distribution you are displaying.

Each of the following two histograms represents the distribution of acceptance rates (percent accepted) among 25 business schools in 1995. The histograms use different class intervals but are based on the same data. In each class interval, the left endpoint is included but not the right.

8. What percent of the schools have an acceptance rate of less than 20%?

- A) 3% B) 4% C) 12%
D) 16%

9. Which interval contains fewer than half of all the observations?

- A) 20% - acceptance rate < 35%
B) 22.5% - acceptance rate < 37.5%
C) 25% - acceptance rate < 40%
D) 30% - acceptance rate < 45%
