isn't about pretending everything is fine. It's about staying open and flexible especially when it's not. In this fresh science-backed debut professional psychologist and media expert Dr Deepika Chopra shows us how to build the kind of optimism that can actually withstand real life. We've been sold the idea that optimism is a mood, a mindset or worse just an inherent trait. But what if real optimism is something else entirely? In *The Power of Real Optimism* Dr Deepika Chopra, known as The Optimism Doctor, offers a radically different definition: optimism as a science, a skill, and a psychological muscle we can strengthen. Drawing from over a decade immersed in the science of resilience, emotional well-being, and cognitive psychology, as well as her work with clients, innovative workshops, and hallmark practices like evidence-based visualization, narrative reframing, her signature self-worth work, and even color therapy, Dr Chopra offers a toolkit for navigating the chaos, uncertainty, and nuance of being human without losing yourself to it. Grounded, practical, and poetic in all the right ways, this book will challenge your relationship with hope, rewire how you recover from hard things, and invite you to stay soft without falling apart. With her blend of intimate storytelling, psychological insight, and tangible tools, including a 33-day Real Optimism Challenge, Dr Chopra offers something far more enduring than a quick fix or fleeting affirmation. She invites us into a deeper, more resilient way of living, one where we can stay curious in the face of fear, open in the face of grief, and grounded even as the world wobbles beneath us. Because real optimism doesn't deny the dark, it teaches us how to see in it.

A relatable personal finance guide that gives a fresh take on how to control your impulse spending so you can stick to a budget and pay off debt without the guilt and shame of traditional financial advice from the hosts of the beloved Frugal Friends podcast. There's a lot of noise out there about how to spend and not spend your hard-earned money. But what if you made financial decisions based on what you value instead of what others are telling you to value? This is the empowering approach Jen Smith and Jill Sirianni, hosts of the Frugal Friends podcast, want you to take to improve your spending habits. They believe you can value anything, yes, anything, whether that's a daily latte, fancy dinners out, or vacations. But despite what social media is saying, you don't value everything. The Frugal Friends wisdom comes from personal experience: Jen paid off 78,000 of debt in two years without a six-figure income, while Jill has a background in social work and downsized to an RV to pay off student loans. Together, their advice is both relatable and actionable. In their debut book, they share a plan for sifting through what's not important to find the things you truly love spending money on. You'll learn how to analyze your current spending and identify what you value, prioritize your values when you can't afford everything, identify the root causes of your impulse spending, make your habit changes stick long-term, from credit card and student loan debt to the rising costs of childcare and homes, it has never been more important to get control of your spending. Jen and Jill show you how to do it in a way that's healthy, not shameful, while exploring topics like overconsumption, self-worth, and the insidious
