Research Anthology on Remote Teaching and Learning and the Future of Online Education Management Association, Information Resources, 2022-09-02. The sudden implementation of emergency health procedures at the start of the COVID-19 pandemic forced many educators and educational institutions to explore new territory in terms of policy, teaching strategy, and more. Now that many institutions are familiar with online education, innovations have been developed and implemented. It is essential to study these best practices and innovations that have been developed in remote teaching and learning to better understand the future of online education. The Research Anthology on Remote Teaching and Learning and the Future of Online Education explores the recent developments, strategies, and innovations in remote teaching and learning that have been implemented globally. Covering topics such as emergency remote teaching, psycho-social well-being, and cross-cultural communication, this major reference work is an indispensable resource for educators and administrators of both K-12 and higher education, pre-service teachers, teacher educators, librarians, government officials, IT managers, researchers, and academicians.

Learning through assessment Anita Lubbe, 2021-12-31. This book aims to contribute to the discourse of learning through assessment within a self-directed learning environment. It adds to the scholarship of assessment and self-directed learning within a face-to-face and online learning environment. As part of the NWU Self-Directed Learning Book Series, this book is devoted to scholarship in the field of self-directed learning, focusing on ongoing and envisaged assessment practices for self-directed learning through which learning within the 21st century can take place. This book acknowledges and emphasises the role of assessment as a pedagogical tool to foster self-directed learning during face-to-face and online learning situations. The way in which higher education conceptualises teaching, learning, and assessment has been inevitably changed due to the COVID-19 pandemic, and now more than ever we need learners to be self-directed in their learning. Assessment plays a key role in learning, and therefore we have to identify innovative ways in which learning can be assessed and which are likely to become the new norm, even after the pandemic has been brought under control. The goal of this book, consisting of original research, is to assist with the paradigm shift regarding the purpose of assessment, as well as providing new ideas on assessment strategies, methods, and tools appropriate to foster self-directed learning in all modes of delivery.
