Learning From Strangers The Art And Method Of Qualitative Interview Studies:

Learning from Strangers Robert Stuart Weiss,1994 The most effective interviews says Weiss rely on creating cooperation an open and trusting alliance between interviewer and respondent dedicated to specific and honest accounts of both internal and external events

Learning from Strangers Weiss,1995-08-01 Whiteness Interrupted Marcus Bell,2021-06-28 In Whiteness Interrupted Marcus Bell presents a revealing portrait of white teachers in majority black schools in which he examines the limitations of understandings of how white racial identity is formed Through in depth interviews with dozens of white teachers from a racially segregated urban school district in Upstate New York Bell outlines how whiteness is constructed based on localized interactions and takes a different form in predominantly black spaces He finds that in response to racial stress in a difficult teaching environment white teachers conceptualized whiteness as a stigmatized category predicated on white victimization When discussing race outside majority black spaces Bell s subjects characterized American society as postracial in which race seldom affects outcomes Conversely in discussing their experiences within predominantly black spaces they rejected the idea of white privilege often angrily and instead focused on what they saw as the racial privilege of blackness Throughout Bell underscores the significance of white victimization narratives in black spaces and their repercussions as the United States becomes a majority minority society

Blinded by Sight Osagie Obasogie,2013-12-11 Colorblindness has become an integral part of the national conversation on race in America Given the assumptions behind this influential metaphor that being blind to race will lead to racial equality it s curious that until now we have not considered if or how the blind see race Most sighted people assume that the answer is obvious they don t and are therefore incapable of racial bias an example that the sighted community should presumably follow In *Blinded by Sight* Osagie K Obasogie shares a startling observation made during discussions with people from all walks of life who have been blind since birth even the blind aren t colorblind blind people understand race visually just like everyone else Ask a blind person what race is and they will more than likely refer to visual cues such as skin color Obasogie finds that because blind people think about race visually they orient their lives around these understandings in terms of who they are friends with who they date and much more In *Blinded by Sight* Obasogie argues that rather than being visually obvious both blind and sighted people are socialized to see race in particular ways even to a point where blind people see race So what does this mean for how we live and the laws that govern our society Obasogie delves into these questions and uncovers how color blindness in law public policy and culture will not lead us to any imagined racial utopia
