Lean Transformation At Global Connect Case Study:

Lean Transformation at Global Connect Gad Allon, Jan A. Van Mieghem, 2017 Global Connect a major telecommunications service provider partners with national cable providers to bundle media and telecom services offered through voice over Internet protocol VoIP Global Connect provides the VoIP physical infrastructure that enables cable providers to offer VoIP phone service to their end customers VoIP cable services are growing at a faster rate than anticipated leaving Global Connect incapable of meeting contractual agreements with the cable partners and preventing them from capturing substantial VoIP market opportunities Students are asked to improve the configuration of work at this service organization by identifying the types of waste in the current process Process improvements use lean tools and their impact is quantified using time and capacity analysis To view a service business as a process and to understand where to find the constraints regarding customer responsiveness flow time and sales throughput This requires a rather subtle capacity analysis
