A NOVEL

Two Brothers Ben Elton

Wieland Schwanebeck

Two Brothers Ben Elton:

Two Brothers Ben Elton, 2012 Berlin 1920 Two babies are born Two brothers United and indivisible sharing everything Twins in all but blood As Germany marches into its Nazi Armageddon the ties of family friendship and love are tested to the very limits of endurance And the brothers are faced with an unimaginable choice *What is History Teaching, Now? A practical handbook for all history teachers and educators* Alex Fairlamb, Rachel Ball, 2023-06-16 *What is History Teaching Now* is a research informed handbook designed to provide practical guidance for history teachers and educators with differing levels of experience Drawing upon the classroom practice and experience of a range of practitioners the book focuses upon key areas such as curriculum and assessment pedagogy communicating history and resources that support effective teaching and learning This book also provides practical ways to approach teaching topics such as diverse histories the British Empire world history and environmental history Practical strategies are woven within the book alongside questions for reflection and suggestions for further research and reading **Catamount Camp** Edward Sylvester Ellis, 1910

Literary Twinship from Shakespeare to the Age of Cloning Wieland Schwanebeck, 2020-01-06 Unlike previous efforts that have only addressed literary twinship as a footnote to the doppelgänger motif this book makes a case for the complexity of literary twinship across the literary spectrum Shortlisted for the ESSE Book Award 2022 Literatures in the English Language it shows how twins have been instrumental to the formation of comedies of mistaken identity the detective genre and dystopian science fiction The individual chapters trace the development of the category of twinship over time demonstrating how the twin was repeatedly re-invented as a cultural and pathological type when other discursive fields constituted themselves and how its literary treatment served as the battleground for ideological disputes by setting the stage for debates regarding kinship and reproduction or by partaking in discussions of criminality eugenic greatness and monstrous births The book addresses nearly 100 primary texts including works of Mary Elizabeth Braddon Wilkie Collins Charles Dickens Arthur Conan Doyle Aldous Huxley Christopher Priest William Shakespeare and Zadie Smith **Focus On: 100 Most Popular English Male Comedians** Wikipedia contributors, **Dystopia** Gregory Claeys, 2016-11-24 *Dystopia A Natural History* is the first monograph devoted to the concept of dystopia Taking the term to encompass both a literary tradition of satirical works mostly on totalitarianism as well as real despotisms and societies in a state of disastrous collapse this volume redefines the central concepts and the chronology of the genre and offers a paradigm shifting understanding of the subject Part One assesses the theory and prehistory of dystopia By contrast to utopia conceived as promoting an ideal of friendship defined as enhanced sociability dystopia is defined by estrangement fear and the proliferation of enemy categories A natural history of dystopia thus concentrates upon the centrality of the passion or emotion of fear and hatred in modern despotisms The work of Le Bon Freud and others is used to show how dystopian groups use such emotions Utopia and dystopia are portrayed not as opposites but as extremes on a spectrum of sociability defined by a heightened form of group identity The prehistory of the

process whereby enemies are demonised is explored from early conceptions of monstrosity through Christian conceptions of the devil and witchcraft and the persecution of heresy Part Two surveys the major dystopian moments in twentieth century despotisms focussing in particular upon Nazi Germany Stalinism the Chinese Cultural Revolution and Cambodia under Pol Pot The concentration here is upon the political religion hypothesis as a key explanation for the chief excesses of communism in particular Part Three examines literary dystopias It commences well before the usual starting point in the secondary literature in anti Jacobin writings of the 1790s Two chapters address the main twentieth century texts usually studied as representative of the genre Aldous Huxley s *Brave New World* and George Orwell s *Nineteen Eighty Four* The remainder of the section examines the evolution of the genre in the second half of the twentieth century down to the present
