Budgeting Marcia F. Johnson, 2011-08-10 Once a person has lived with a successful budget they will never go back to living without one In this book we will look at ways in which budgeting can help you and your family achieve the best possible financial future When looking at setting up a budget the hardest thing is getting over any emotional baggage which may hinder your success But once you have found the right budget method that works for you things will be a lot easier Many people do not find budgets a pleasant thing to do and they often do not want to take an honest look at what their finances are like But if you do it now in about a year's time you will look back and see what changes have occurred The whole idea of budgeting is that it helps you spend your money where you really need to spend it and will eliminate those expenses that you

do not need For example wouldn t it be nice to rid yourself of having to pay your thousands of dollars in interest each year
Wouldn t you rather be spending that money on something that you really need
