Students who are beginning studies in technology need a strong foundation in the basics before moving on to more advanced technology courses and certification programs. The Microsoft Technology Associate MTA is a new and innovative certification track designed to provide a pathway for future success in technology courses and careers. The MTA program curriculum helps instructors teach and validate fundamental technology concepts and provides students with a foundation for their careers as well as the confidence they need to succeed in advanced studies. Through the use of MOAC MTA titles you can help ensure your students' future success in and out of the classroom. Windows Developer Fundamentals covers the foundations of Windows Development as well as MTA 98 362 exam objectives. The following areas are covered: the various types of applications that run on Windows; how to create graphical user interface GUI applications that run on Windows by using Windows Forms or Windows Presentation Foundation WPF; how Windows Services are programmed and hosted on a computer that runs Windows; how to access data from various sources for use in a Windows based application; and how to successfully deploy a Windows application to target computers.

MTA Microsoft Technology Associate Developer Exams 98-361 , 363 and 373 ExamFOCUS Study Notes and Review Questions SPECIAL EDITION for READER with LOW VISION ExamREVIEW, 2013-04-16

The Microsoft Technology Associate MTA certification is an entry level certification which serves as a good starting point for students and educators who may eventually progress to the Microsoft Technology Specialist MCTS or higher programs. Simply put it assesses the foundational knowledge necessary to pursue MCTS MCITP or MCPD certifications. The certification focuses more on knowledge and a little less on skills. However, the knowledge areas are all based on MS products so you must know those products inside and out. Questions on the general knowledge are relatively easy. Product and technology specific technical questions however are way more difficult. This is why we developed this study product: we focus on those difficult topics that involve difficult technical skills. We want you to be able to answer these difficult questions and secure exam success accordingly.

Software Development Fundamentals EXAM 98 361 covers Core Programming Object oriented Programming General Software Development Web Applications Desktop Applications Databases Web Development Fundamentals. EXAM 98 363 covers Programming web applications Working with data and services Troubleshooting and debugging web applications Working with client side scripting Configuring and deploying web applications Mobile Development Fundamentals. EXAM 98 373 covers Work with Physical Devices Use Data with Mobile Devices Use a Mobile Application Development Environment Develop Mobile Applications. These three exams have some common elements and we believe that it would be beneficial for you to study both together. We give you knowledge information relevant to the exams.

specifications To be able to succeed in the real exams you ll need to apply your earned knowledge to the question scenarios Many of the exam questions are written to be less straight forward They tend to be framed within the context of short scenarios The exams are not too difficult However coverage is very comprehensive a wide range of topics are presented in the official topic lists The exams do not ask you to answer hundreds of questions In other words only a small fraction of the official topics will be presented This ExamFOCUS book focuses on the more difficult topics that will likely make a difference in exam results The book is NOT intended to guide you through every single official topic You should therefore use this book together with other reference books for the best possible preparation outcome
