**Abstract:** The present study aimed to provide a proposed taxonomy of strategies for translating English proverbs into Arabic. The proposed taxonomy classified the strategies for the Arabic translation of English proverbs into five, depending on the form and meaning of proverbs and the availability of equivalent proverbs in Arabic. The strategies are an exact match between English and Arabic proverbs, a match except for key culture-specific and environment-specific words, a complete mismatch in form with intact meaning, equivalent lines of Arabic poetry to some English proverbs and literal translation with or without an explanation. The taxonomy was applied to a sample of English proverbs with their Arabic equivalents per the classification of translation strategies suggested in this study.

**Keywords:** translation; proverbs; taxonomy; strategy; English; Arabic

### 1. Introduction

Proverbs are a common cultural element in all languages and cultures (D'Angelo, 2009; Doyle, Mieder & Shapiro, 2012). They can be defined as "special, fixed, unchanged phrases which have special, fixed, unchanged meanings" (Charata, 1995, p. 138). They aim to give people life lessons which seem to cover all aspects of life (Mieder, 2011). They have also been a hot translation topic for numerous research studies across the world as they are an essential component of culture and a challenging area for professional translators and language learners (e.g., Bekki, 2010; Al-Jabbari et al., 2011; Al-Sobhani et al., 2013; Shahab & Faragmeh, 2014; Abu Al-Tamen, 2015; Dawid & Thalji, 2016; Mohammed, et al., 2018). In addition, proverbs have some common distinctive features such as brevity of expression, use of imagery, rhyming words, parallel phrases and literary or poetic language, to mention few (Seitel, 1984; Mieder, 2004; Zoltaghari & Ameri, 2012; Viljoen, 2015; Stewart, 2015) which are some salient features of poetry as well. The knowledge of proverbs in the working languages of any professional translator is a great advantage as it will enable him/her to both understand proverbs in the source language and provide equivalent proverbs or good translations for them in the target language. The study of proverbs which is known as paroemiology is interdisciplinary as proverbs can be interpreted and analyzed from different perspectives and in different contexts.

The researcher compiled over one thousand English proverbs and translated them into Arabic in a book entitled *One Thousand and One English Proverbs Translated into Arabic* (Jabak, 2020). He

**Linguistics and Language Behavior Abstracts** ,2008 Paramoucy of Context in Translating Arabic Proverbials Into English Ekrema Shehab,2011-12 Translators of Arabic proverbs into English frequently seek to find incontextualized English proverbs as equivalent to contextualized Arabic proverbs Rarely can we find translators who give any consideration to the proverb s social and pragmatic context Translators simply rush to find an existing unsituated proverb in the TL as an equivalent to a situated proverb in the SL and hence they produce awkward and irrelevant renderings This book therefore endeavors to demonstrate the paramoucy of context in translating Arabic proverbials into English Apparently in the translation of Arabic proverbs into English most translators are mechanically driven to check a published list of out of context English proverbs and choose the one which seems to be equivalent to its Arabic counterpart This book has revealed that the proverb s usage and meaning are a mixture of various social and pragmatic factors and that proverbs are elastic context
