The Great Romance Inhabitant,2008-01-01 *The Great Romance* a two volume novella published under the pseudonym *The Inhabitant* was one of the outstanding late nineteenth century works of utopian science fiction Volume 1 was a possible model for Edward Bellamy's phenomenally successful *Looking Backward* while volume 2 was assumed lost for over a century until uncovered in the Hocken Library in Dunedin New Zealand Together these volumes represent a remarkable piece of science fiction writing as they proffer one of the first serious considerations of the colonization of other planets and the impact of human beings on an alien culture Here for the first time readers encounter descriptions of spacesuits and airlocks space shuttles and planetary rovers interplanetary colonization and cross species miscegenation Behind these genre defining elements is the story of John Hope who by means of a sleeping elixir awakes to a utopian community in a distant future a kingdom of thought where the struggle for existence has been eliminated and humanity operates under an unwritten law of civility and harmony aided by telekinesis that inerrantly reveals all wrong doers Since only two of the probably three volumes are extant the tale ends with a chilling cliffhanger In his introduction Dominic Alessio discusses the cutting edge aspects of this work and its significance in both the realm of science fiction and the history and culture of its day

[Off the Main Sequence](#) Tom Easton,2006-10-01 Tom Easton has served as the monthly book review columnist for *Analog Science Fiction* for almost three decades having contributed during that span many hundreds of columns and over a million words of penetrating criticism on the best literature that science fiction has to offer His reviews have been celebrated for their wit humor readability knowledge and incisiveness His love of literature particularly fantastic literature is everywhere evident in his essays Easton has ever been willing to cover small presses obscure authors and unusual publications being the only major critic in the field to do so on a regular basis He seems to delight in finding the rare gem among the backwaters of the publishing field A reviewer's job he says is not to judge books for the ages but to tell readers enough about a book to give them some idea of whether they would enjoy it And this he does admirably whether he's discussing the works of the great writers in the field or touching upon the least amongst them This companion volume to *Periodic Stars* Borgo Wildside collects another 250 of Easton's best reviews from the last fifteen

Abbott, Arthur Dudley Vinton, Gertrude Barrows Bennett, Hugh Benson, 2022-11-13 The anthology *The Greatest of Dystopian Classics of All Time* navigates the shadowy realms of human imagination through a striking collection of dystopian literature It traverses time from Mary

Shelley's prescient forebodings to the philosophical quandaries posed by E M Forster and the allegorical dimensions woven by Jonathan Swift. This collection encompasses a myriad of styles from the prophetic to the satirical, each shedding light on societal structures and individual agency. Distinct narratives engage with prevailing anxieties about technological advancement, moral decay, and socio-political upheaval, offering readers a venue to ponder the complexities of humanity itself. Contributing authors span the literary landscape, united by their stark portrayals of potential futures that extend beyond the conventional confines of their periods. Writers such as H G Wells, Edgar Allan Poe, and Ayn Rand craft speculative narratives that question the repercussions of socio-economic disparities and the ethical dilemmas inherent in technological progress. The anthology pays homage to diverse literary traditions and movements, including Romanticism's probing of human nature and realism's dialogue with industrial society, enhancing the book's thematic richness. This anthology invites readers to explore a confluence of prophetic voices and diverse literary crafts. It's an essential compendium for those seeking to understand the cultural and philosophical underpinnings of dystopian narratives across history. A unique intellectual journey within these pages awaits, challenging assumptions while providing multifaceted perspectives on the enduring appeal and relevance of dystopian fiction. The work is not only an engaging literary expedition but also a profound educational tool, facilitating dialogue between past contemplations and contemporary concerns.

Be a Writing Superstar Joel A. Sutherland, 2010. Writing can be fun, and here's the book to prove it. Hemingway, Dostoevsky, Shakespeare. All of them wrote masterpieces when they were adults. But imagine what they could have written when they were kids, if only they had had this book. *Be a Writing Superstar* is an irreverent, encouraging writing guide for young readers which covers a whole spectrum of topics. It succeeds in teaching them the nuts and bolts of the entire writing process, from brainstorming their early ideas and shaping them on paper, right through to hosting their own book launch. Yes, kids will be trading witty repartee and bon mots with their fellow scribes as they get their literary game on. And for when the dreaded writer's block kicks in, kids can draw inspiration from their writing heroes by reading some short interviews with famous Canadian authors and illustrators. Some of Canada's finest, including Robert Munsch, M. Lanie Watt, Gordon Korman, and Kenneth Oppel, agreed to answer 5 Silly Questions about their writing, and all of them are included in this book. A hilarious reminder that writers are funny people and writing is above all else fun.

Braille and Talking Books ,2010 **Science-fiction Studies** ,1993 **Kenneth Oppel Airborn Series: Three-Book Bundle** Kenneth Oppel, 2014-12-02 In Airborn enter a past in which airplanes have never been invented giant airships rule the skies and the glittering skyscrapers of Lionsgate City Canada s greatest metropolis rise near the Pacificus Ocean When Matt Cruse the cabin boy on the luxury airship Aurora fearlessly performs a dramatic rescue to save an old man from his

damaged hot air balloon he doesn't know what events he's setting in motion. Will he and the balloonist's fiery granddaughter Kate de Vries be able to solve the mystery of impossible flying creatures seen among the clouds? And will they figure it out before pirates and shipwreck end their voyage forever? Pushed high into the sky by a storm over the Indian Ocean, the decrepit training ship Flotsam makes an astonishing discovery before being forced to descend. Adrift at 20,000 feet is a tattered ice-crusted airship bearing the name Hyperion. Could it really be the legendary lost craft, now a vast treasure and a frozen mausoleum to a ghostly crew? Matt Cruse is the only member of Flotsam's oxygen-starved crew able to remember the ghost ship's coordinates, and it seems as if everyone in the fabulous city of Paris wants them. In *Skybreaker*, Matt and Kate de Vries are challenged with another thrilling adventure, this time among the icy dangers and strange wonders of the upper atmosphere. At long last, Matt Cruse is at the helm. Though it's only a summer job piloting a humble aerocrane, he's thrilled to be helping to build the Celestial Tower, Paris's extraordinary gateway to outer space. But Matt's idyllic summer is short-lived. He narrowly survives a deadly attack by the fanatical Babelites, who are opposed to humans reaching the heavens. Worse still, his nights spent stargazing with Kate de Vries must end when she's summoned back to Lionsgate City by her parents. But then the chance of a lifetime boosts Matt's hopes of being airborne once more. Canada wants to reach space first, and the Canadian Minister of Air has asked Kate to join the first expedition as an expert on aerial zoology. There's a place for Matt too, if he can pass the grueling tests to become one of the world's first astronauts on board the incredible ship *Starclimber*.
