**The Routledge Companion to Video Game Studies** Mark J.P. Wolf, Bernard Perron, 2014-01-03. The number of publications dealing with video game studies has exploded over the course of the last decade but the field has produced few comprehensive reference works. The Routledge Companion to Video Game Studies compiled by well known video game scholars Mark J.P. Wolf and Bernard Perron aims to address the ongoing theoretical and methodological development of game studies providing students, scholars and game designers with a definitive look at contemporary video game studies. Features include comprehensive and interdisciplinary models and approaches for analyzing video games; new perspectives on video games both as art form and cultural phenomenon; explorations of the technical and creative dimensions of video games; accounts of the political, social and cultural dynamics of video games. Each essay provides a lively and succinct summary of its target area quickly bringing the reader up to date on the pertinent issues surrounding each aspect of the field including references for further reading. Together they provide an overview of the present state of game studies that will undoubtedly prove invaluable to student, scholar and designer alike.

*Location-Based Social Media* Leighton Evans, Michael Saker, 2017-01-23. This book extends current understandings of the effects of using locative social media on spatiality, the experience of time and identity. This is a pertinent and timely topic given the increase in opportunities people now have to explicitly and implicitly share their location through digital and mobile technologies. There is a growing body of research on locative media, much of this literature has concentrated on spatial issues. Research here has explored how locative media and location based social media (LBSN) are used to communicate and coordinate social

interactions in public space affecting how people approach their surroundings turning ordinary life into a game and altering how mobile media is involved in understanding the world This book offers a critical analysis of the effect of usage of locative social media on identity through an engagement with the current literature on spatiality a novel critical investigation of the temporal effects of LBSN use and a view of identity as influenced by the spatio temporal effects of interacting with place through LBSN Drawing on phenomenology post phenomenology and critical theory on social and locative media alongside established sociological frameworks for approaching spatiality and the city it presents a comprehensive account of the effects of LBSN and locative media use
