### Full Feasibility Analysis

Every full feasibility study is organized into generally well-defined sections that correspond to the questions that you will need to answer. Along with each part of the comprehensive study, it is essential to fill in the "What" and "How" sections of the outline. With the aid of long-forms, you can write the following:

#### Introduction

- (a) Name of the proposed business
- (b) Name of the founder (or founders)
- (c) One-paragraph summary of the business

#### Part I: Product/Service Placement

##### Market Assessment in This Part

- (a) Production cost description
- (b) Production cost details

##### Assessment Topics

#### Concept Statement Test

- Write a concise statement for your product/service idea. Study the concept statement in 7.1 or 8.1 people. Select people who will give you informed and useful feedback.
- Attach a check sheet for the concept assessment and ask the people who read the statement to circle your ideas (things they like about your product/service idea (2)), provide three suggestions for making it better. (To ask your interviewees what they think the greatest or smallest idea is feasible, but not the "most likely" and not about any additional comments or suggestions.)
- Summarize the information you obtain from the concept statement test that follows the three paragraphs:
  - Strength of the product or service idea — (ask people who indicated your product/service concept was their "best" about the idea)
  - Suggestions for strengthening the idea — suggestions made by people that strengthen ideas or improve the idea
  - Overall feasibility of the product or service concept — report the number of people who think the idea is feasible, the number of people who think it is not feasible, and any additional comments that were made.
  - Other comments and suggestions
