Migration at Work Fiona-Katharina Seiger, Christiane Timmerman, Noel B. Salazar, Johan Wets, 2020-09-25 The willingness to migrate in search of employment is in itself insufficient to compel anyone to move The dynamics of labour mobility are heavily influenced by the opportunities perceived and the imaginaries held by both employers and regulating authorities in relation to migrant labour This volume offers a multidisciplinary approach to the study of the structures and imaginaries underlying various forms of mobility Based on research conducted in different geographical contexts including the European Union Turkey and South Africa and tackling the experiences and aspirations of migrants from various parts of the globe the chapters comprised in this volume analyse labour related mobilities from two distinct yet intertwined vantage points the role of structures and regimes of mobility on the one hand and aspirations as well as migrant imaginaries on the other Migration at Work thus aims to draw cross contextual parallels by addressing the role played by opportunities in mobilising people how structures enable sustain and change different forms of mobility and how imaginaries fuel labour migration and vice versa In doing so this volume also aims to tackle the interrelationships between imaginaries driving migration and shaping regimes of mobility as well as how the former play out in different contexts shaping internal and cross border migration Based on empirical research in various fields this collection provides valuable scholarship and evidence on current processes of migration and mobility Live & Work in the USA and Canada Adam Lechmere, Susan Catto, 1995 A detailed survey of the opportunities for living and working in the USA Canada from New York to Los Angeles and from Montreal to Vancouver

Flight, 1916 **The Way We Never Were** Stephanie Coontz, 2016-03-29 The definitive edition of the classic myth shattering history of the American family Leave It to Beaver was not a documentary a man s home has never been his castle the male breadwinner marriage is the least traditional family in history and rape and sexual assault were far higher in the 1970s than they are today In The Way We Never Were acclaimed historian Stephanie Coontz examines two centuries of the American family sweeping away misconceptions about the past that cloud current debates about domestic life The 1950s do not present a workable model of how to conduct our personal lives today Coontz argues and neither does any other era from our cultural past This revised edition includes a new introduction and epilogue exploring how the clash between growing gender equality and rising economic inequality is reshaping family life marriage and male female relationships in our modern era More relevant than ever The Way We Never Were is a potent corrective to dangerous nostalgia for an American tradition that never really existed

Eriksson, B. A. Kitchenham, Kea Tjens, 1991 This volume considers the

impact of information technology on women's employment and education by examining two main themes: the effect of women's perspectives on systems analysis and design and the factors which lead to the underrepresentation of women in the computer profession and in particular to the low numbers of female students of computer science and informatics. Statistics on participation of women in the computer industry are included along with theories and empirical findings on participatory design of office systems and case studies on the impact of information technology on gendered division of labour. Papers suggesting ways of overcoming the problems faced both by women users of computer systems and by women entering the computing profession complete the volume.
