structured process for guiding students in preparing for collaborative discussions about books. Structured discussions enable students to examine the author's work together as they respond to essential questions using evidence from the reading. Students are directed to make personal connections to story characters, plots, and settings. They are asked to explore the writer's craft through the examination of selected words, structures, settings, and literary devices incorporated in the novels. This guide includes specific literary analysis activities suitable for the six types of fiction presented and offers annotated lists of recommended advanced level books of each type, including those recommended in the CCSS. The guide also supports the social and emotional issues of early adolescents, offering specific works suitable for a range of common topics such as identity, friendships, high expectations, and feelings of isolation.
