Collins,Jeremy Ridgman,2006 Since the nineteenth century children s literature has been adapted for both the stage and the screen As the twentieth century progressed children s books provided the material for an increasing range of new media from radio to computer games from television to cinema blockbuster Although such adaptations are now recognised as a significant part of the culture of childhood and popular culture in general little has been written about the range of products and experiences that they generate This book brings together writers whose work offers contrasting perspectives on the process of adaptation and the varying transformations social historical and ideological that take place when a text moves from the page to another medium Linking all these contributions is an interest in the changing definition of children s literature and its target audience within an increasingly media rich society *The Child Savage, 1890-2010* Elisabeth Wesseling,2016 Taking up the understudied relationship between the cultural history of childhood and media studies this volume traces twentieth century migrations of the child savage analogy from colonial into postcolonial discourse across a wide range of old and new media Older and newer media such as films textbooks children s literature periodicals comic strips children s radio and toys are deeply implicated in each other through ongoing remediation meaning that they continually mimic absorb and transform each other s representational formats stylistic features and content Media theory thus confronts the cultural history of childhood with the challenge of re thinking change in childhood imaginaries as transformation through repetition patterns rather than as rise shine decline sequences This volume takes up this challenge demonstrating that one historical epoch may well accommodate diverging childhood repertoires which are recycled again and again as they are played out across a whole gamut of different media formats in the course of time *The Hidden Arrow of Maether* Aiden Beaverson,2002 When she runs away from her cruel stepfather rather than be married off to a follower of the evil Rane Linn begins to discover her own special gift and wonder if she might be one of the lysefolk followers of the Great One about whom she has only read *The School Librarian* ,2000 *I was a Rat* Philip Pullman,2005 A small homeless boy insists that he was a rat What is he now monster fairground freak or ordinary small boy Only three people believe the latter and only one of those knows the real truth *Death and Fantasy* William Gray,2008 Drawing on

philosophy theology and psychoanalysis as well as on literary criticism this collection of essays explores a range of fantasy texts with particular attention to the various ways in which they seek to deal with the reality of death The essays uncover some fascinating links and indeed tensions between the writers discussed

Children's Literature Diana Mitchell, Pamela Waterbury, Rose Casement, 2003 Children's Literature An Invitation to the World is written and organized in a manner that engages the readers and that will instill confidence in teachers when selecting and using literature in their teaching Readers are asked to take a world view of literature what it is how to recognize one's own how to recognize an author's and encouraged to see children's literature through a lens that includes people not like themselves The book tackles tough issues such as gender and racial bias and how they can be insidiously promoted in literature No other book on the market engages readers more than this one Rather than just presenting topics the book asks What can we learn from them In addition the first person narrative involves readers in the discussion rather than simply presenting content to them
