## **Ib Geography Paper 2 November 2013:**

The Shadow of Kenyan Democracy Dominic Burbidge, 2016-03-09 Why has democracy failed to reduce corruption in Kenya Framing the challenge in game theoretical terms Dominic Burbidge examines how mutual expectations between citizens dictate the success or failure of political reforms Since 1992 Kenya has conducted multiparty elections with the hope of promoting accountability and transparency in government This is being undermined by ongoing corruption and an increasingly centralised state response to terrorism Providing a nuanced assessment of democracy's difficult road in Kenya Burbidge discusses the independent role being played by widespread social expectations of corruption Through tracking average views of the average person it is possible to identify a threshold beyond which society suffers mutually reinforcing negative social expectations This trend is the shadow of Kenyan democracy and must be treated as a policy challenge on its own terms before institutional reforms will be successful

*Political Economy and the Aid Industry in Asia* J. Hutchison, W. Hout, C. Hughes, R. Robison, 2015-12-25 Adopting a distinctive structural political economy approach this book uniquely explains the blind spots of alternative political economy approaches to international aid and presents an original framework for evaluating likely reformers strength of commitment and potential alliances with donors

Memorials as Spaces of Engagement Quentin Stevens, Karen A. Franck, 2015-08-11 Memorials are more diverse in design and subject matter than ever before No longer limited to statues of heroes placed high on pedestals contemporary memorials engage visitors in new often surprising ways contributing to the liveliness of public space In *Memorials as Spaces of Engagement* Quentin Stevens and Karen A Franck explore how changes in memorial design and use have helped forge closer richer relationships between commemorative sites and their visitors The authors combine first hand analysis of key examples with material drawn from existing scholarship Examples from the US Canada Australia and Europe include official formally designed memorials and informal ones those created by the public without official sanction *Memorials as Spaces of Engagement* discusses important issues for the design management and planning of memorials and public space in general

The book is organized around three topics how the physical design of memorial objects and spaces has evolved since the 19th century how people experience and understand memorials through the activities of commemorating occupying and interpreting and the issues memorials raise for management and planning Memorials as Spaces of Engagement will be of interest to architects landscape architects and artists historians of art architecture and culture urban sociologists and geographers planners policymakers and memorial sponsors and all those concerned with the design and use of public space

Clean Rail Transportation Options Ibrahim Dincer,Janette Hogerwaard,Calin Zamfirescu,2015-09-18 This book will assess and compare several options for ammonia co fueling of diesel locomotives with integrated heat recovery multigeneration including on board hydrogen fuel production from ammonia and emission reduction subsystems from energy exergy and environmental perspectives Economic considerations will be presented to compare the cost of the proposed systems for different scenarios such as carbon tax rates diesel fuel cost and ammonia cost Fossil fuel consumption and the associated negative environmental impact of their combustion is a significant global concern that requires effective practical and sustainable solutions From a Canadian perspective the Transportation Sector contributes more than 25% of national greenhouse gas emissions due to fossil fuel combustion largely due to road vehicles cars light and heavy duty trucks This is a complex and critical challenge to address particularly in urban areas with high population density There is a need to develop alternative energy solutions for mass passenger and freight transportation systems that will reduce both the traffic volume of road vehicles as well as the emissions from the mass transportation systems The book will be helpful to students in senior level undergraduate and graduate level courses related to energy thermodynamics thermal sciences combustion HVAC R etc The quantitative comparative assessment of such alternative energy systems provided by this book will be useful for researchers and professionals interested sustainable development

Small States and International Security Clive Archer,Alyson J.K. Bailes,Anders Wivel,2014-03-14 This book explains what small states are and explores their current security challenges in general terms and through specific examples It reflects the shift from traditional security definitions emphasizing defence and armaments to new security concerns such as economic societal and environmental security where institutional cooperation looms larger These complex issues linked with traditional power relations and new types of actors need to be tackled with due regard to democracy and good governance Key policy challenges for small states are examined and applied in the regional case studies The book deals mainly with the current experience and recent past of such states but also offers insights for their future policies Although many of the states covered are European the study also includes African Caribbean and Asian small states Their particular interest and relevance is outlined as is the connection between their security challenges and their smallness Policy lessons for other states are then sought The book is the first in depth multi continent study of security as an aspect of small state governance today It is novel in placing the security dilemmas of small states in the context of wider ideas on international and institutional change and in dealing with non European states and
