

Global and Southern African Perspectives

2nd Edition

# Operations Management

Managing operations is important, exciting and challenging. It is also critical for successful performance within the organisation, both in the public and the private sectors. This updated second edition highlights the strategic context in which operations managers work and provides a comprehensive introduction to operations management for students who wish to understand its nature and practice in the field. It will benefit a range of students and practitioners, undergraduates in business studies, MBA students and post-graduate students in other specialist Master disciplines. It can also help practising managers who are furthering their studies.

The authors bring to life the study of operations management with 100 local and international case studies. There is a major focus on Southern African examples of operations management in practice, as well as providing critical commentaries on areas of academic and current social debate.

Students will engage with challenging questions: How does an organisation ...

- create and deliver products at lower cost and higher value?
- meet the challenges posed by changes in customer preferences, internet-based technologies and global supply networks?
- promote creativity, manage knowledge and innovation, and encourage social responsibility?
- meet the service delivery requirements of customers and clients on a growing African continent?

**Mike Pycraft** is a Senior Lecturer at Wits Business School in the area of Operations and Technology Management. He has consulted widely in both manufacturing and service industries. His present research interests are in educational systems design, materials supply systems and project management.

**Hemraj Singh** is the CEO of Beyond Payments, a Division of Standard Bank. He specialises in the fields of Competitive Strategy, e-commerce, technology planning, IT security and value chain enhancement.
