
APICS CPIM Part 2 Practice Test Questions And Answers (2022-2023)

14 Points - W. Edwards Deming's 14 management practices to help companies increase their quality and productivity

A3 Method - A means of compactly describing a business process

Abnormal Demand - Demand in any period that is outside the limits established by management policy

Absorption Costing - An approach to inventory valuation in which variable costs and a portion of fixed costs are assigned to each unit production.

Acceptable Quality Level (AQL) - When a continuing series of lots is considered, a quality level that, for the purposes of sampling inspection, is the limit of a satisfactory process average

Acceptance Sampling - the process of sampling a portion of goods for inspection rather than examining the entire lot

Action Message - An output of a system that identifies the need for, and the type of action to be taken to correct, a current or potential problem.

Activation - Putting a resource to work

Activity-Based Cost Accounting - A cost accounting system that accumulates costs based on activities performed and then uses cost drivers to allocate these costs to products or other bases such as customers, markets, or projects. It attempts to allocate overhead costs on a more realistic basis than by using direct labor or machine hours

Activity-Based Management (ABM) - The use of activity-based costing information about cost pools and drivers, activity analysis, and business processes to identify business strategies; improve design, manufacturing, and distribution; and remove waste from operations

Actual Costs - The labor, material, and associated overhead costs that are charged against a job as it moves through the production process
