Empowering and Advancing Women Leaders and Entrepreneurs Haoucha, Malika, 2024-05-31  
Women living in rural regions today still often struggle to harness the full potential of mobile internet for their economic empowerment despite a rapidly evolving digital landscape. This limitation hinders their ability to engage in online selling, job searching, and accessing public services, thereby constraining potential economic opportunities. The powerful research book *Empowering and Advancing Women Leaders and Entrepreneurs* presents a comprehensive analysis of the impact of mobile internet on gender-inclusive economic empowerment, offering innovative solutions to enhance rural entrepreneurs' digital skills and knowledge. The underrepresentation of women in leadership roles globally must be addressed to advance gender equity. This book examines the systemic barriers, including stereotypes and biases, that impede women's advancement in leadership positions. By proposing coordinated solutions involving corporations, governments, and civil society, such as allyship building and policy reforms, the book aims to reduce gender gaps in leadership and foster a more inclusive society. Through its insightful analysis and practical recommendations, this book is a valuable resource for scholars, policymakers, and practitioners seeking to promote gender equality and inclusive development, and underscores the necessity of their roles for this initiative.

In a fun way, thematic infographics show the impact from consumption and production inspired by Life Cycle Assessment (LCA).
