This workbook will guide you towards creating an online content marketing positioning for your brand and business. You're here because you want to apply content marketing concepts to your business, turning yourself into a lean and mean content marketing machine. To start, what is content marketing? Content marketing is a strategic marketing and business process focused on creating and distributing valuable, relevant, and consistent content. This content is meant to attract and retain a clearly defined audience and ultimately drive profitable customer action. When done correctly, content marketing helps create a relationship with your audience which leads to trust. And if your audience trusts you, they'll be more willing to do business with you when they're ready to make a purchasing decision. Your content should attract the right people to your site, convert those people into leads, and nurture and help close them into customers. But it doesn't stop there; your content should always delight your customers, turning them into promoters of your brand. In a nutshell, content marketing is really just the art of communicating with your prospects and customers without having to sell to them.
