The Mind of Gladstone

David Bebbington, 2004-03-11 Gladstone s ideas are far more accessible

for analysis now that following the publication of his diaries a record of his reading is available This book traces the evolution of what the diaries reveal as the statesman s central intellectual preoccupations theology and classical scholarship as well as the groundwork of his early Conservatism and his mature Liberalism In particular it examines the ideological sources of Gladstone s youthful opposition to reform before scrutinizing his convictions in theology These are shown to have passed through more stages than has previously been supposed he moved from Evangelicalism to Orthodox High Churchmanship on to Tractarianism and then further to a broader stance that eventually crystallized as a liberal Catholicism His classical studies focused primarily on Homer also changed over time from a version that was designed to defend a traditional worldview to an approach that exalted the depiction of human endeavour in the ancient Greek poet An enduring principle of his thought about religion and antiquity was the importance of community but a fresh axiom that arose from the modifications of his views was the centrality of all that was human The twin values of community and humanity are shown to have conditioned Gladstone s rhetoric as Liberal leader so making him in terms of recent political thought a communitarian rather than a liberal but one with a distinctive humanitarian message As a result of a thorough scrutiny of Gladstone s private papers the Victorian statesman is shown to have derived a distinctive standpoint from the Christian and classical sources of his thinking and so to have left an enduring intellectual legacy It becomes apparent that his religion Homeric studies and political thought were interwoven in unexpected ways The evolution of Gladstone s central intellectual preoccupations with religion and Homer is the theme of this book It shows how the statesman developed from Evangelism to Orthodox High Churchmanship on to Tractarianism and then further to a broader stance that eventually crystallized as a liberal Catholicism It demonstrates also that his Homeric studies developed over time Neither aspect of his thinking was kept apart from his politics Gladstone s early conservatism emerged from a blend of classical and Christian themes focusing on the idea of community While that motif persisted in his speeches as Liberal leader the category of the human emerged from

his religious and Homeric ideas to condition the presentation of his Liberalism In Gladstone s mind there was an intertwining of theology Homeric studies and political thought Devotional Commentary on the Gospel Narrative Isaac Williams,1877
