Geography's Media Turn Chris Lukinbeal, Stanley D. Brunn, 2026-01-29 This edited volume examines how the arts and sciences have had to adapt engage confront and even alter research teaching and community service because of modern media The book describes how academics work with and through the media in their daily and professional lives The acceleration of changes to media in the digital age has been astounding whether due to social media web 2.0 new sensor technologies fake news or the rise of a post truth news media economy Many academics became media producers during COVID 19 having to engage in emergency remote teaching Further as academics we can no longer publish our results and expect a metered response from all entities but rather must promote and defend our work in the media and the classroom There is almost no part of academic work let alone human life that is not affected by media Many academics across the sciences and humanities now embrace the media as part of their daily practice and actively engage in media production through building podcasts and convergent media sites managing online courses and degree programs or being administrators or educators who interact with the media regularly at local national or international scales The chapters are original and written by a group of interdisciplinary junior and senior scholars from various world regions

Law and the Digital Reanimation of the Dead Pranav Menon, 2026-02-09 This book analyzes the legal tensions that exist in the economy that purports to reanimate the dead using postmortem digital technologies Technological reanimation has proven to be big business with many notable commercial entities investing in this afterlife economy Postmortem technologies convincingly replicate the appearance physiognomy conversation styles and thought patterns of a deceased individual by

generating digital copies that act in their stead In the entertainment industry new works can be created with dead celebrities through a postmortem copy that is managed by their representatives The result is an economy in which the dead are offered as a product or service to consumers with some having their artistic legacies extended past death through an afterlife career Many stakeholders stand to benefit from such a lucrative afterlife economy but the law is simply not prepared for the issues that will arise with this exploitation of the dead Reanimation requires the exploitation of one s reputation persona artistic works and personal data However the corresponding legal protections are either nonexistent inapplicable or inconsistent across borders depending on which posthumous interest is analyzed In response and by studying the contours of the existing legal protections in the afterlife economy this book proposes a system rooted in the shared ownership of one s postmortem copy and the responsible stewardship of legacies through fiduciary duties Law and the Digital Reanimation of the Dead will be of considerable interest to scholars working in the areas of entertainment law intellectual property and law and technology as well as others with professional interests in the area
