Atlas of Yellowstone W. Andrew Marcus, 2022-01-11 The second edition of the award winning Atlas of Yellowstone contains 50% new material making it the authoritative reference for the world's first national park on its 150th anniversary. The publication of the Atlas of Yellowstone Second Edition coincides with the 150th anniversary of the founding of Yellowstone National Park, a major international event. The atlas is an accessible comprehensive guide that presents Yellowstone's story through compelling visualizations rendered by award-winning cartographers at the University of Oregon. Readers of this new edition of the Atlas of Yellowstone will explore the contributions of Yellowstone to preserving and understanding natural and cultural landscapes to informing worldwide conservation practices and to inspiring national parks around the world while also learning about the many struggles the park faces in carrying out its mission. Ranging from Indigenous Americans and local economies to geysers and wildlife migrations from the life of one wolf to the threat of wildfires, each page provides leading experts' insights into the complexity and significance of Yellowstone. Key elements of the atlas include: More than 1,000 maps, graphics, and photographs; Contributions from more than 130 experts; Detailed topographic maps of Yellowstone and Grand Teton National Parks; Exploration of Yellowstone National Park's influence over 150 years on conservation practice, park management, and American culture; New detailed visualizations of wildlife that take advantage of modern GPS technology to track individual animals and entire herds; Place name origins for Yellowstone and Grand Teton National Parks and the surrounding region.

National Parks of the American West For Dummies Kurt Repanshek, 2005-02-25 Formerly America's National Parks For Dummies, this guide now focuses exclusively on the most popular parks in the system: those west of the Mississippi. Covers Arches, Death Valley, Grand Canyon, Grand Teton, Mount Rainier, Olympic, Sequoia, King's Canyon, Yellowstone, Yosemite, and Zion. 65 percent of Americans surveyed said they had taken a trip of 50 miles or more in the last year to visit a state or national park or forest.
