Year Million Science At The Far Edge Of Knowledge Paperback:

Year Million Damien Broderick, 2008 In fourteen original essays leading scientists and science writers cast their minds forward to 1 000 000 C E exploring an almost inconceivably distant future *The Year's Best Science Fiction: Thirty-First Annual Collection* Gardner Dozois, 2014-07-15 In the new millennium what secrets lay beyond the far reaches of the universe What mysteries belie the truths we once held to be self evident The world of science fiction has long been a porthole into the realities of tomorrow blurring the line between life and art Now in The Year s Best Science Fiction Thirty First Annual Collection the very best SF authors explore ideas of a new world in the year s best short stories This venerable collection brings together award winning authors and masters of the field such as Robert Reed Alastair Reynolds Damien Broderick Elizabeth Bear Paul McAuley and John Barnes And with an extensive recommended reading guide and a summation of the year in science fiction this annual compilation has become the definitive must read anthology for all science fiction fans and readers interested in breaking into the genre **The Year's Best Science Fiction: Twenty-Ninth Annual Collection** Gardner Dozois, 2012-07-03 In the new millennium what secrets lay beyond the far reaches of the universe What mysteries belie the truths we once held to be self evident The world of science fiction has long been a porthole into the realities of tomorrow blurring the line between life and art Now in The Year s Best Science Fiction Twenty Ninth Annual Collection the very best SF authors explore ideas of a new world This venerable collection brings together short stories from award winning authors and masters of the field such as Robert Reed Alastair Reynolds Damien Broderick Elizabeth Bear Paul McAuley and John Barnes And with an extensive recommended reading guide and a summation of the year in science fiction this annual compilation has become the definitive must read anthology for all science fiction fans and readers interested in breaking into the genre **Beyond** Chris Impey, 2015-04-06 Expansive and enlightening Impey packs his prose with wonderful anecdotes and weird factoids New York Times Book Review Human exploration has been an unceasing engine of technological progress from the first homo sapiens to leave our African cradle to a future in which mankind promises to settle another world Beyond tells the epic story of humanity leaving home and how humans will soon thrive in the vast universe beyond the earth A dazzling and propulsive voyage through space and time Beyond reveals how centuries of space explorers from the earliest stargazers to today s cutting edge researchers all draw inspiration from an innate human emotion wanderlust This urge to explore led us to multiply around the globe and it can be traced in our DNA Today the urge to discover manifests itself in jaw dropping ways plans for space elevators poised to replace rockets at a fraction of the cost experiments in suspending and reanimating life for ultra long distance travel prototypes for solar sails that coast through space on the momentum of microwaves released from the Earth With these ventures private companies and entrepreneurs have the potential to outpace NASA as the leaders in a new space race Combining expert knowledge of astronomy and avant garde technology Chris Impey guides us through the heady possibilities for the next century of exploration In twenty years a vibrant commercial space

industry will be operating In thirty years there will be small but viable colonies on the Moon and Mars In fifty years mining technology will have advanced enough to harvest resources from asteroids In a hundred years a cohort of humans born off Earth will come of age without ever visiting humanity s home planet This is not the stuff of science fiction but rather the logical extension of already available technologies Beyond shows that space exploration is not just the domain of technocrats but the birthright of everyone and the destiny of generations to come To continue exploration is to ensure our survival Outer space a limitless unknown awaits us
