How to End a Story Helen Garner, 2025-03-11 For the first time ever collected here are all three volumes of the diaries of Helen Garner inviting readers into the world behind the novels and nonfiction of a literary force The name Helen Garner commands near universal acclaim A master of many literary forms Garner is best known for her frank unsparring and intricate portraits of ordinary people in difficult times New York Times But the inspiration for it all was her extensive collection of diaries fastidiously kept intricately written and delightfully dishy unspooling the inner lives of her insular world in bohemian Melbourne Now for the first time all three volumes of Garner's inimitable diaries are collected into one book Spanning more than two decades each finely etched volume reveals Garner like never before a fledgling author publishing her lightning rod debut novel in the late 70s in the throes of a consuming affair in the late 80s and clinging to a disintegrating marriage in the late 90s And all the while they bear witness to one of the world's great writers hard at work Devastatingly honest and disarmingly funny How to End a Story is a portrait of loss betrayal and the sheer force of a woman's anger but also of resilience quotidian moments of joy the immutable ties of motherhood and the regenerative power of a room of one's own

Creativity Kevin Brophy, 1998 Is creativity a therapeutic culturally enriching and health giving pursuit or is it an outpouring of darkly unconscious neurotically dangerous material What have been some of the important modern influences on our assumptions and ideas about creativity Using a fascinatingly varied but beautifully controlled blend of approaches Kevin Brophy places the creative writer and artist within a modern history of arguments over questions of creativity He discusses creativity as a social cultural practice presenting creativity as a historical political and inevitably compromised practice which must always be in dispute In a world where creative writing is becoming institutionalised through university courses he argues for the importance of continuing instability theoretical sophistication and unsettled differences over what creativity is

A New History of Educational Philosophy James Kaminsky, 1993-02-28

Kaminsky provides a new intellectual history of educational philosophy in the context of a comparative examination of educational philosophy in the United States, Britain, and Australasia. Throughout his work, he challenges those involved with educational philosophy to take a different view of the discipline and its intellectual mission. Kaminsky argues that the intellectual mission of education is different from that of philosophy. He believes that the legitimate audience of educational philosophy is made up of professional educators. The new history of educational philosophy suggests a profound alignment with social science, the discipline being part of an attempt to define and realize a social politic for the Common School. The conduct and invention of philosophy of education in Britain is drawn from an attempt to restore the classical reassurances of the English concept of a liberal education to the conduct of teacher education in particular and the conduct of English versions of education in general. In Australasia, Kaminsky argues the discipline was initially dependent upon the work of R. S. Peters and the establishment of the university study of education in Britain. Later developments are attributed to a defensive two-class politics that came out of convictry and began to find expression in Old and New Left politics in the late 1960s and beyond. In offering a new interpretation of educational philosophy which traces its origins to both social science and philosophy, Kaminsky has provided a work of value to all involved with educational philosophy.
