and Deep Learning Techniques for Medical Image Recognition Ben Othman Soufiene,Chinmay Chakraborty,2023-12-01
Machine Learning and Deep Learning Techniques for Medical Image Recognition comprehensively reviews deep learning
based algorithms in medical image analysis problems including medical image processing It includes a detailed review of
deep learning approaches for semantic object detection and segmentation in medical image computing and large scale
radiology database mining A particular focus is placed on the application of convolutional neural networks with the theory
and varied selection of techniques for semantic segmentation using deep learning principles in medical imaging supported by
practical examples Features Offers important key aspects in the development and implementation of machine learning and
deep learning approaches toward developing prediction tools and models and improving medical diagnosis Teaches how
machine learning and deep learning algorithms are applied to a broad range of application areas including chest X ray breast
computer aided detection lung and chest microscopy and pathology Covers common research problems in medical image
analysis and their challenges Focuses on aspects of deep learning and machine learning for combating COVID 19 Includes
pertinent case studies This book is aimed at researchers and graduate students in computer engineering artificial
