The Struggle for Development and Democracy Alessandro Olsaretti, 2021-12-13 In *The Struggle for Development and Democracy* Alessandro Olsaretti argues that we need significantly new theories of development and democracy to answer the problem posed by neoliberalism and the populist backlash namely uneven development and divisive politics This book proposes as a first step a truly multidisciplinary humanist social science to overcome the flaws of neoliberal economic theories and to recover a balanced

approach to theories and policies alike that is especially needed in the wake of the 9 11 attacks These led to divisive culture wars which were compounded by the divisive populist politics This book begins to sketch such a humanist social science and applies it to answer one question who is responsible for neoliberalism and the populist backlash All royalties from sales of this volume will go to GiveWell org in honour of Alessandro Olsaretti s memory

James Robert Brown,2001-12-21 Brown chronicles engagements in the science wars from the Sokal affair to angry confrontations over the nature of evidence the possibility of objectivity and the methods of science to show how the contested terrain is science but the prize is political Whoever wins the science wars will have an unprecedented influence on our governance **Rogue States** Noam Chomsky,2016-09-20 Rogue States is a collection of essays written by Chomsky in the late 1990s all of which subvert the United States foreign policy discourse and the notion of the rogue state turning the focus of criticism inwards and demonstrating how Western powers fail to uphold their own standards of conduct Among the topics considered are the Balkans Crisis the embargo against Cuba and US intervention in Latin America all of which provide important lessons for today from one of our most eminent and insightful teachers **What We Say Goes** Noam Chomsky,2007-10-02 An indispensable set of interviews on foreign and domestic issues with the bestselling author of Hegemony or Survival America s most useful citizen The Boston Globe In this new collection of conversations conducted in 2006 and 2007 Noam Chomsky explores the most immediate and urgent concerns Iran s challenge to the United States the deterioration of the Israel Palestine conflict the ongoing occupations of Iraq and Afghanistan the rise of China and the growing power of the left in Latin America as well as the Democratic victory in the 2006 U S midterm elections and the upcoming presidential race As always Chomsky presents his ideas vividly and accessibly with uncompromising principle and clarifying insight The latest volume from a long established trusted partnership What We Say Goes shows once again that no interlocutor engages with Chomsky more effectively than David Barsamian These interviews will inspire a new generation of readers as well as longtime Chomsky fans eager for his latest thinking on the many crises we now confront both at home and abroad They confirm that Chomsky is an unparalleled resource for anyone seeking to understand our world today **Requiem for the American Dream** Noam Chomsky,2017-03-28 A NEW YORK TIMES BESTSELLER In his first major book on the subject of income inequality Noam Chomsky skewers the fundamental tenets of neoliberalism and casts a clear cold patient eye on the economic facts of life What are the ten principles of concentration of wealth and power at work in

America today They re simple enough reduce democracy shape ideology redesign the economy shift the burden onto the poor and middle classes attack the solidarity of the people let special interests run the regulators engineer election results use fear and the power of the state to keep the rabble in line manufacture consent marginalize the population In *Requiem for the American Dream* Chomsky devotes a chapter to each of these ten principles and adds readings from some of the core texts that have influenced his thinking to bolster his argument To create *Requiem for the American Dream* Chomsky and his editors the filmmakers Peter Hutchison Kelly Nyks and Jared P Scott spent countless hours together over the course of five years from 2011 to 2016 After the release of the film version Chomsky and the editors returned to the many hours of tape and transcript and created a document that included three times as much text as was used in the film The book that has resulted is nonetheless arguably the most succinct and tightly woven of Chomsky s long career a beautiful vessel including old fashioned ligatures in the typeface in which to carry Chomsky s bold and uncompromising vision his perspective on the economic reality and its impact on our political and moral well being as a nation During the Great Depression which I m old enough to remember it was bad much worse subjectively than today But there was a sense that we ll get out of this somehow an expectation that things were going to get better from *Requiem for the American Dream* [Crashing the Tea Party](#) Paul Street,Anthony R. Dimaggio,2015-12-03 The Tea Party has been the most high profile and controversial social movement in the US of recent times But real analysis of the Tea Party remains slim is it a genuine social movement or a topdown interest group created by the Republican Party and corporate funding *Crashing the Tea Party* is based on first hand observation of local Tea Party chapters and undertakes a critical journalistic and scholarly examination from the national and local level Paul Street and Anthony DiMaggio provide a carefully documented account which challenges conventional wisdoms *Crashing the Tea Party* fills the gap in public understanding about this particular social movement and how social movements in general relate today to the ideologies of left and right and the mass media *The Publishers Weekly* ,2009 **The Myth of American Idealism** Noam Chomsky,Nathan J. Robinson,2025-10-14 For anyone wanting to find out more about the world we live in there is one simple answer read Noam Chomsky *The New Statesman* A sharp indictment of both American foreign policy and the national myths that support it and an urgent warning of the threat that U S power poses to humanity s future *The Myth of American Idealism* offers a timely and comprehensive introduction to the incisive critiques of U S power that have made Noam Chomsky one of the most widely known public intellectuals of all time Surveying the history of U S military and economic activity around the world Chomsky and coauthor Nathan J Robinson vividly trace the way the American pursuit of global domination has wrought havoc in country after country Chomsky and Robinson offer penetrating accounts of Washington s relationship with the Global South its role in the Israeli Palestinian conflict and the wars in Iraq and Afghanistan all justified with noble stories about humanitarian missions and the benevolent intentions of American policymakers The same myths that have led to repeated disastrous wars they argue are now imperiling humanity s future

Examining nuclear proliferation and climate change they show how U S policies are continuing to exacerbate global threats For well over half a century Noam Chomsky has committed himself to exposing governing ideologies and criticizing his country s unchecked power At once thorough and devastating urgent and provocative *The Myth of American Idealism* offers a highly readable entry to a lifetime of thought and activism
