

HAN'S FREIGHTER

THE GALAXY'S SMUGGERS Han Solo and Chewbacca are the dominant pilots of the millennium, famous as legendary smugglers and rebel heroes. But that was a long time ago. The Falcon is gone, and has eluded every attempt by her former owners to track her down. Han and Chewie now operate the *Ebonweaver*, a modified bulk freighter that handles like a consumable bomber. The *Coalition* and the *Yokozuna* have made a lot of money off credits with their new ship, increasing the galaxy's carrying everything from bulk consumables needed by remote colonies to exotic fauna desired by wealthy collectors. They have also made more Han a few enemies in the inevitable consequence of Han's old-timey business practices.

MOVING CARGO

Bulk freighters act as the transportation mainstay for the movement of large volumes of galactic goods, and are essential to commerce. Built in solid aluminum, they come with a plenty of armor, making them a space marine and bomber both in feel and about weight. That bulk freighters are crucial to operations in the intergalactic space race has caused it to drive the market from pure cash.

LIMITS OF INGENUITY

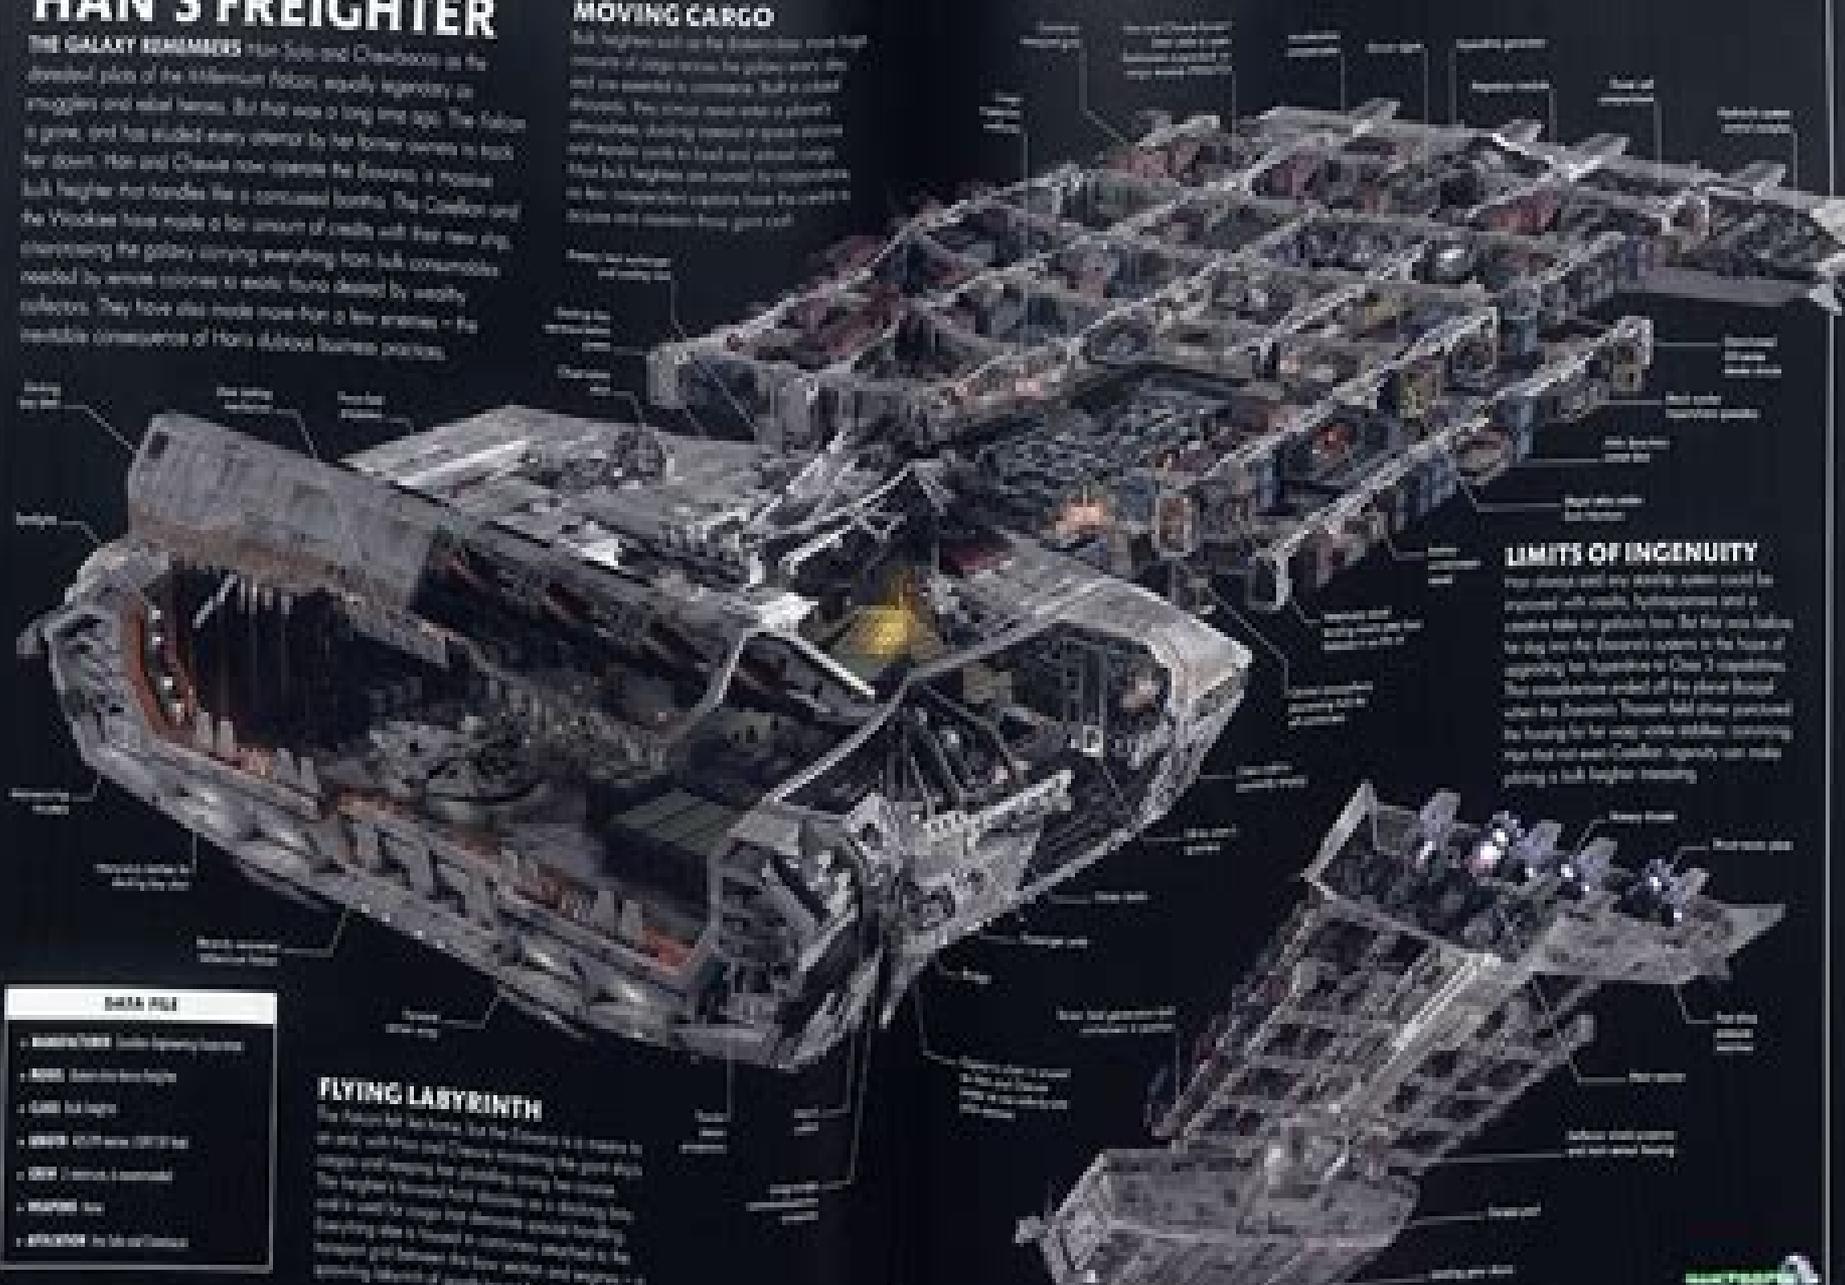

Star ships and the smaller vessels could be equipped with credits, submissives and a variety of other galactic toys. But the ones before us dig into the *Ebonweaver*'s systems in the face of opposing the expertise of Chewie's capabilities. The modifications ended off the planet *Blup* when the *Coalition* *Yokozuna* had their punches in looking for her way with abilities containing that the real-time *Coalition* ingenuity can make using a bulk freighter thinking.

FLYING LABYRINTH

The *Ebonweaver* for Han Solo, but the *Ebonweaver* is a complex in itself, with Han and Chewie thinking the pure ship design and looking for something strong for use. The freighter's layout and structure is a complex one, with a lot of things that *Ebonweaver* could handle. Everything else is focused in a complex structure that is the transport grid between the two main and engine - a complex network of paths used for most things.
