abilities as a parent because your child doesn't seem to love you. Are you at your wit's end because of your child's endless lies and destruction? While parenting inevitably comes with its fair share of struggles, caring for a child with Reactive Attachment Disorder (RAD) will turn your world upside down. It doesn't matter how much you love and care for them; your child will push your buttons and test your limits. From violence to false accusations of abuse, no parent expects or is prepared to handle these kinds of troubling behavior from a child. Your child's unique condition requires a unique style of parenting. Because they don't have the same motivations and attachments as regular children, a child with Reactive Attachment Disorder will need a different type of care and discipline. Fortunately, you don't have to figure things out on your own. Others have gone through the heartaches and struggles of parenting a child with this serious condition. By learning from their experiences, you can navigate this challenging journey with both eyes open and prepare your family for what lies ahead. This easy-to-understand guide lays out the complexities of dealing with Reactive Attachment Disorder based on detailed research and hands-on experience. In *Reactive Attachment Disorder 101*, here is just a fraction of what you will discover: How to approach parenting when caring for a child with Reactive Attachment Disorder and why it differs from traditional parenting methods. Why your child is rejecting your attempts to hug and kiss them and how to show your affection instead. The shocking behavior that could put your other children in harm's way and the measures you should take to keep them safe. How to make your child feel secure and at ease in your home when they feel suffocated by your care and attention. The types of discipline that work with children with Reactive Attachment Disorder and how to implement them. The essential qualities to look for when seeking professional help for your child. The 1 thing you should do when interacting with your child that will not only help you take better care of them but also protect you in worse case scenarios. The hard choices you need to be prepared for when parenting a child with Reactive Attachment Disorder. And much more. It can be tempting to give up when you feel like your child is more than you are capable of handling. But it's possible to overcome these difficult challenges and thrive as a family. Understanding your child's illness is the first step in resolving your child's issues.
