highest order that will benefit anyone reading it Transylvanian Moonrise A Secret Initiation in the Mysterious Land of the Gods will take you far beyond your ordinary imagination in order to describe events that have molded the past and will influence the future in the decades ahead *Mystery of Egypt* Radu Cinamar,2012 Radu Cinamar stunned the world when he announced the greatest archeological find of all time in his first book Transylvanian Sunrise which revealed a hidden chamber some 50 000 years old beneath the Romanian Sphinx in the Bucegi Mountains This chamber includes holographic technology with a visual data bank of infinite DNA permutations in addition to three tunnels one leading to the inner earth one to Tibet and one to Egypt In *Mystery of Egypt* Radu is part of an expedition to explore the tunnel to Egypt where they encounter ancient artifacts that look more futuristic than they do ancient It is a detailed account of a remarkable adventure that includes further interactions with Cezar Brad the head of Romanian Intelligence s Department Zero and Elinor the enigmatic alchemist While these claims are more than controversial Cezar ignites further controversy when he shares some of his experiences since their last meeting An amazing follow up to Radu s second book Transylva Compendium 81 Earl Kramer,2023-06-21 Compendium 81 provides a compilation of information covering the Roswell incident reincarnation free energy Inner Earth the Telos civilization and much more The overriding message of the collection is to promote peace and love in our world Politics and the Environment in Eastern Europe Eszter Krasznai Kovacs,2021-07-28 Europe remains divided between east and west with differences caused and worsened by uneven economic and political development Amid these divisions the environment has become a key battleground The condition and sustainability of environmental resources are interlinked with systems of governance and power from local to EU levels Key challenges in the eastern European region today include increasingly authoritarian forms of government that threaten the operations and very existence of civil society groups the importation of locally contested conservation and environmental programmes that were designed elsewhere and a resurgence in cultural nationalism that prescribes and normalises exclusionary nation building myths This volume draws together essays by early career academic researchers from across eastern Europe Engaging with the critical tools of political ecology its contributors provide a hitherto overlooked perspective on the current fate and reception of environmentalism in the region It asks how emergent forms of environmentalism have been received how these movements and perspectives have redefined landscapes and what the subtler effects of new regulatory regimes on communities and environment dependent livelihoods have been Arranged in three sections with case studies from Czechia Hungary Lithuania Poland Romania and Serbia this collection develops anthropological views on the processes and consequences of the politicisation of the environment It is valuable reading for human geographers social and cultural historians political ecologists social movement and government scholars political scientists and specialists on Europe and European Union politics Questioning Darwin-Malthusian hypothesis: Remark on critics to Darwin's evolutionary process of history, from Ernst Cassirer to Jaroslav Flegr Victor Christianto,Florentin Smarandache,2024-04-30 As Rev John Polkinghorne the late professor of mathematical

physics and priest wrote The idea of a ready made world was replaced by that of a creation so endowed by its Creator with potentiality that creatures could be allowed to make themselves Charles Kingsley through the explorations of evolutionary process The history of the world is to be understood as an unfolding act of continuous creation Such a creation is a great good but it has an inescapable shadow side for evolution results not only in great fertility but also in blind alleys and extinctions Genetic mutation produces both new life forms and also malignancy and one cannot have the one without the other Theology can find here some help from science as it wrestles with the perplexities of natural evil and suffering of Polkinghorne The University of Edinburgh 2009 Notably several scholars have come up with different arguments to criticize Darwin s evolution theory for instance Ernst Cassirer Vern Poythress with Interpreting Eden and Jaroslav Flegr in his book Frozen evolution that is not the way it is mr Darwin The present review is intended to bring more arguments in particular from recent development of nonlinear dynamics attributed to low temperature physics and its connection to cosmology

The Greatest Treachery in Human History Daniel Harran,2023-06-23 The initial goal of this book was to discover the ultimate purpose and meaning behind the abductions of human beings into UFOs the alarming reality of which is still hardly known to the public But as this study developed it led to a series of revelations which brought us to an unexpected interpretation of this phenomenon Indeed it became all too obvious that there was a connection between these abductions and the absurd path that today s human society is taking More and more measures are being implemented that are threatening the health well being and freedom of human beings the world over under the guise of security purposes Those responsible for this are not only our leaders but occult forces which are exposed in this book We were therefore led to unveil what we can indeed refer to as the greatest treachery in human history extremely powerful dark forces have been acting on Earth for a very long time unbeknownst to our population These forces identified in this book are directly interfering in the governance of our world and are directly opposed to the harmonious evolution of Humankind putting us all in grave danger This book sheds an unprecedented new light on how this all relates to the tragic events Humanity has been going through since 2020

Forgotten Genesis Radu Cinamar,2020-01-15 Radu Cinamar s sixth book is about his continued liaison with the Inner Earth civilization Apellos where he views certain key aspects of the history of Mankind by viewing holographic projections which are facilitated by a headset he wears featuring advanced technology that is able to interact with his cerebral cortex and intuition The result is a compelling tale of how multiple extraterrestrial civilization influenced and steered the DNA of Mankind to evolve as well as the accompanying history which includes a description of ancient civilizations such as Atlantis the building of the pyramids the Egyptian Sphinx Hyperborea and other interesting mysteries
