Errand into the Wilderness of Mirrors Michael Graziano, 2021-06-17 Reveals the previous underexplored influence of religious thought in building the foundations of the CIA Michael Graziano's intriguing book fuses two landmark titles in American history Perry Miller's *Errand into the Wilderness* 1956 about the religious worldview of the early Massachusetts colonists and David Martin's *Wilderness of Mirrors* 1980 about the dangers and delusions inherent to the Central Intelligence Agency Fittingly *Errand into the Wilderness of Mirrors* investigates the dangers and delusions that ensued from the religious worldview of the early molders of the Central Intelligence Agency Graziano argues that the religious approach to intelligence by key OSS and CIA figures like Wild Bill Donovan and Edward Lansdale was an essential and overlooked factor in establishing the agency's concerns methods and understandings of the world In a practical sense this was because the Roman Catholic Church already had global networks of people and safe places that American agents could use to their advantage But more tellingly Graziano shows American intelligence officers were overly inclined to view powerful religions and religious figures through the frameworks of Catholicism As Graziano makes clear these misconceptions often led to tragedy and disaster on an international scale By braiding the development of the modern intelligence agency with the story of postwar American religion *Errand into the Wilderness of Mirrors* delivers a provocative new look at a secret driver of one of the major engines of American power

Part One of this book is based on ethnographic fieldwork conducted by the author during 1970-72 on a local branch of the Muhammadiyah in the town of Kotagede, a suburb of Yogyakarta, Indonesia. This work, first published in 1983, observed that the Muhammadiyah social and educational movement had reformed traditional Javanese Islam into a vital, living faith and adapted Muslim life to modernity. The author was one of the first scholars who had noted that there was continuing Islamization in Indonesia and predicted its progress in the future. Part Two is based on the author's three decades of follow-up visits to the Kotagede from the 1970s to 2010. During this period the Muhammadiyah movement made enormous advancements enough to make the town known as a Muhammadiyah town. On the national level the Muhammadiyah has grown to be the second largest Islamic civil society organization after the traditionalist Nahdlatul Ulama in Indonesia, with millions of members and supporters. Yet the wider environment for it has been altered greatly by urbanization, diversification, and globalization. It is also facing unprecedented challenges arising from calls for democratization in the post-Soeharto era. The longitudinal study in this volume depicts the most recent dynamics of the Muhammadiyah movement in a local as well as transhistoric context.
