**Islam The Straight Path 4th Edition:**

*Overcoming Orientalism* Tamara Sonn,2021-05-28 Since John Esposito published his first book nearly 40 years ago he has been guiding readers beyond misleading and dangerous stereotypes of Muslims The essays in this volume highlight the contributions of scholars from a variety of disciplines who like Esposito present Islam as a multi faceted and dynamic tradition embraced by communities in globally interconnected but substantially diverse contexts over the centuries

**Understanding World Religions** David Whitten Smith,Elizabeth Geraldine Burr,2014-08-21 Understanding World Religions introduces students to major worldviews including Hindu Buddhist Muslim Jewish Christian Native American and Marxist through the lens of justice and peace The second edition has been updated and revised throughout After an introduction to key themes in studying world religion chapters help students explore major traditions today Each chapter takes a similar approach examining several dimensions of each tradition experiential and emotional social and institutional narrative or mythic doctrinal and philosophical practical and ritual and ethical and legal Chapters feature profiles of major peacemakers or groups to bring the traditions to life Profiles range from Gandhi and Martin Luther King to Thich Nhat Hanh and Dorothy Day Further chapters explore liberation theologies active nonviolence and just war theory The second edition features a broader framework than the first edition and includes new material on non religious ethical norms Islamophobia colonial evangelization religion in China and an updated examination of the Israel Palestine conflict Understanding World Religions remains a powerful introduction to major worldviews with an emphasis on practical connections to peace and justice **The Woman Question in Islamic Studies** Kecia Ali,2024-09-17 The interconnected ways that sexism functions in academic Islamic studies and how to shift professional norms toward parity Despite remarkable shifts in the demographics of Islamic studies in recent decades the field continues to be dominated by men who often relegate other scholars and their work particularly research on gender to its periphery while treating subfields in which men predominate as more rigorous and central In The Woman Question in Islamic Studies Kecia Ali explores the interconnected ways that sexism functions in academic Islamic studies Examining publications citations curricula and media representations Ali finds that despite the growth and depth of scholarship on Islam and gender men continue to overlook women s scholarship even in work that purports to discuss gender issues Moreover media and social media dynamics make talking about Islam and Muslims for broader audiences especially fraught for scholars who are not men particularly when the topic is gender or sexuality Combining broad surveys with more focused analyses of a smaller set of texts Ali shows that textbooks and syllabi continue to exclude women as historical actors and scholars and to marginalize gender and sexuality as subject matter Finally she provides a Beginner s Guide to Eradicating Sexism in Islamic Studies offering practical strategies to help scholars avoid common pitfalls in their own work and contribute to broader professional transformations **Hispanic Muslims in the United States** Victor Hugo Cuartas,2020-03-31 The empirical case in this study is that of the Hispanic Catholic converts to

Islam in the Washington DC Metropolitan and New Jersey areas of the United States The central research question is To what extent do Hispanic Muslim converts play a role in making different choices regarding religious commitment and practice The argument is that not only do both the more and less active converts play a central role in making choices during the pre affiliation and post affiliation stages but that these choices can often be strategic in nature as they practice the new religion in the United States These choices are shaped by multiple factors This contributes to a new understanding of the prevailing debates among Muslims in Europe and the United States on the nature of Muslim minorities in the West that Muslims here are not merely transplanted but are active participants of diverse expressions of local Islam The evidence in my research shows that being less active does not mean converts do not play a role or make choices Both more active and less active converts make choices based on multiple factors This is especially significant as the main aim of this thesis is to show that the converts make choices and play a role in the post affiliation stage and that these often have strategic elements

*Islam* Solomon Alexander Nigosian,2004 This compact introduction to Islam encapsulates the essential aspects of Islam as a living religion and social force The book is organized around seven topics the life of Muhammad Islamic political development and territorial expansion the important groupings of Islamic believers Sunni Shi ite and Sufi the Qur an the Holy Book of Islam Sunnah Hadith the record of the Prophet s actions and sayings and Shari ah the compilation of Islamic law the five Articles of Faith and the so called Five Pillars of Islam that govern faith and action and other binding religious observances and festivals The presentation of these seven aspects of Islam strikes a balance between fact tradition current interpretation and commentary S A Nigosian underscores two fundamental points that to understand Islam properly it is necessary to see it as a major faith tradition with Muhammad as the last of a series of messengers sent by God and that to grasp the spirit of Islam one must recognize its emphasis on an uncompromising monotheism with strict adherence to certain social political and religious practices as taught by the Prophet and elaborated by tradition **Global Islamic Politics** Mir Zohair Husain,2003 The primary intention of this book is to explore analyze and explain global Islamic politics In doing so this text discusses the root causes characteristics consequences and implications of global Islamic politics Written in a simple and clear style and providing in depth definitions of key terms Global Islamic Politics aims to make this important and complex subject accessible to all readers In addition the book offers suggestions for ameliorating the relations between the Muslim world and the West in a way that promotes mutual understanding and peace rather than misunderstanding and conflict Notable Muslims Natana J. DeLong-Bas,2006 From political leaders and human rights activists to rap musicians and NBA basketball stars this diverse collection of profiles documents the contributions of fifty male and fifty female Muslims to a wide variety of different fields and professions As an exploration and celebration of what it means to be a Muslim today it offers a colourful and vibrant counterpoint to the stereotypes of religious fundamentalists and masked suicide bombers that have become all too commonplace in Western representations of Islam Notable Muslims is unique among works of a similar

nature in its contemporary focus eighty five of the one hundred figures profiled are alive today and many have been interviewed personally by Natana DeLong Bas for this project With a complete set of references and web links for every profile this meticulously researched work will provide an indispensable resource for students and teachers and a rich source of inspiration for all those committed to building bridges of interfaith and intercultural understanding in the modern world BOOK JACKET      The Sacred Paths Theodore M. Ludwig,2001 For courses in Religions of the World History of Religions Comparative Religion and Introduction to Religious Studies in departments of Religion Religious Studies Theology and Philosophy Unique in approach this text combines an historical descriptive presentation of individual religions with a comparative thematic approach It begins with a discussion of the basic human questions and concerns relating to religion e g origin and identity ultimate reality human nature and the good life and then uses these essential concepts to help describe the beliefs practices and historical development of each religion As the work of a single scholar much of it based on original research this book offers a consistency and depth missing in many of the texts in this field      **Differences in the Ummah and the Straight Path** Muḥammad Yūsuf Ludhiyānvī,1999      *The Muslim World Book Review* ,2002      From Puritanism to Platonism in Seventeenth Century England James Deotis Roberts,1969 The research of Professor J D Roberts has interested me for several years It has interested me because he has been working in a really rich area of intellectual history Even before Professor Whitehead taught us to speak of the seventeenth century as the century of genius many of us looked with wonder on the creativity of the men who produced religious and philosophical literature in that period of contro versy and of power It was in a most unusual way a flowering time of the human spirit The present volume is devoted to one fascinating chapter in the history of ideas We know now far better than we knew a generation ago how incendiary Puritan ideas really were They had tremendous consequences many of which continue to this day in spite of the absurd caricature of Puritanism which is popularly accepted The best of Milton s contemporaries were great thinkers as well as great doers
