

JAVA Interview Questions and Answers:

Can a constructor be made final?

No, this is not possible.

static members belong to a class, but the constructor is needed to create an object. An abstract class is a partially implemented class, which contains abstract methods to be implemented in child class. final restricts modification: variables become constant, methods can't be overridden, and classes can't be inherited.

No, constructors are similar to methods, but cannot be invoked directly by a method call. They are used to initialize new class instances. Like methods, they may be overloaded
