Managing Risk in Information Systems

VERSION 2.0

ISSAS is a global standard for information security and assurance, providing a framework for organizations to manage risk and ensure the confidentiality, integrity, and availability of their information systems. It is based on the ISO 27000 family of standards and is designed to be flexible and scalable, allowing organizations of all sizes and in all industries to implement it. The standard is currently in its second version, ISSAS 2.0, which includes updates to reflect the latest best practices and emerging threats in the field of information security.
