Broadly speaking Indian English IE is that variety of English used by a large number of educated Indians as a second language Kachru 1983 used the term Indian English for the variety of English used generally in the South Asian countries

David Crystal 2003 observes that in India the numbers of English speakers outrank the combined number of speakers in USA and UK A considerable body of creative writing is also produced in English and is increasing steadily Writers like Mulk Raj Anand R K Narayan and Raja Rao and Arundhati Roy have become part of India s literary tradition and they may continue to hold their status in world literature too The use of Indian English in different domains in interaction with other regional languages has resulted in its development and recognition as a distinct variety in its own right It is an attempt to study the styles of two of the prominent writers of Indian English namely R K Narayan and Arundhati Roy by examining the different linguistic and literary aspects as reflected in their selected fictions R K Narayan s Swami and Friends SF and The Guide TG and Arundhati Roy s The God of Small Things GST An examination of selected fictions of the two writers of this study has shown that stylistic analysis can be a rich field of enquiry in Indian English Studies of the present kind can be used as a source material for applied linguistics They can be extended for a comparative study of stylistic traits of Indian writers and non Indian writers The study suggests the possibility of further research in comparative stylistic studies in Indian English fiction on the one hand and American British or Australian fiction on the other Our comparison of the two writers one of the colonial period and the other belonging to the post colonial period suggests that a more extensive stylistic study of Indian writing in English is called for to understand the changing phases of English in the socio cultural ethos of the Indian society The book is organized as follows Chapter I is an introduction to Indian English its importance and the objective of the research Chapter II deals with review of literature on Indian English as well as stylistic studies in Indian English fiction Chapter III is concerned with a brief introduction to the texts chosen for study Chapter IV discusses the methodology adopted in the study Chapter V deals with the results of the study and makes a comparison between the two authors styles Chapter VI consists of a summary of the research and concludes with suggestions regarding further research needs

**Aesthetic Impropriety** Rose Casey,2025-07-01 Across Africa, Asia, and the Americas, colonial Britain's property laws are in the process of being transformed. *Aesthetic Impropriety* analyzes vanguard legal actions and literary innovations to reveal contemporary reforms to property law that are undoing law's colonial legacies. Casey traces precise legal histories across distinct jurisdictions throughout the anglophone world, revealing the connection between land law and petroleum extraction in the Niger Delta, inheritance and divorce laws, and gender inequality in India, intellectual property law, and Indigenous dispossession in South Africa, and admiralty law and racialized non-personhood in the English Atlantic. In response to these manifold forms of dispossession, significant reforms are underway, including common law suits, statutory reform, and proposed changes to legal doctrine. Casey develops the concept of aesthetic impropriety to identify shared structures of thought across legal and literary venues. She shows that writers of poetry and prose are also transforming harmful property laws. In Nigeria, Ben Okri and Chigozie Obioma have articulated symbiotic ecological relationships that are also evidenced in recent actions against petroleum companies in India. Arundhati Roy's challenge to divorce laws has preempted similar attempts at reform in Parliament in South Africa. Zo Wicomb theorized protections for Indigenous modes of creative production nineteen years before they were signed into law, and in the Americas, M. NourbeSe Philip has proposed a novel method of achieving justice for the one hundred fifty enslaved people who were killed in the 1781 Zong massacre. *Aesthetic Impropriety* makes a convincing case for literature's generative capacities and registers the enduring significance of the postcolonial as a necessary framework for understanding globalized inequality in the twenty-first century. By analyzing

shared legal and aesthetic transformations Aesthetic Impropriety argues that law and literature play vital roles in creating anticolonial world orders
