

# HARVESTBOON CLAN VENDRITH

Starting from the young Harvestboon Gully, you'll bring spring back to the clans of the Age of Dawn. One Vendrith Harvestboon always blossoms only once and is essential for the clan's survival. Harvestboon in battle, and with the spiritless and nearly featureless models, they are amongst the most talented and beautiful of all the offspring.

## ALARELLE'S BRIGHT HOPE

Great for any beginner when coloring. Once White Spray paint has dried, apply two coats of white paint to the entire model. Concentrate on the particular white colors, it also works on the skin when the die-cast is done. When the paint is fully dry, carefully apply the blue paint to the outer headband. Then, apply different shades of white to the rest of the head. The right hair is then painted with flat blue Green Gully. Then apply the blue paint to give the character the all important Harvestboon quality. It is best to apply the blue to the character in one painting session, so applying the blue over the white and letting them dry separately can lead to "bleeding" when the different applications meet. Avoid the issue by concentrating on one detail, either by using the recommended base paint or by distributing using the listed components.

Colors: Yellow-Green  
Blue and White: Head, White  
Blue and Green: Head, Blue  
White: Harvestboon  
Blue: Harvestboon  
Blue: Harvestboon

If you're distributing your Harvestboon army, consider painting the Green, Blue and White. These start to look better painting the skin. And you'll see how this way, any kind of distributed paint that you put on these later will be covered up by the second or 3rd session.
