Ice Haven:

Ice Haven Daniel Clowes,2005 Presents an offbeat tour of the sleepy Midwestern town of Ice Haven and its unusual inhabitants including Random Wilder the narrator and would be poet laureate of the town his arch rival Ida Wentz the lovelorn Violet Van der Plazt and Vida Wentz and Mr and Mrs Ames a detective team Reprint *Sherwood Anderson's Winesburg, Ohio* ,2016-01-12 Sherwood Anderson s Winesburg Ohio revisits a classic twentieth century American text Scholars from around the world share their interpretations and shed new light on Anderson s contribution to Modernism and his legacy to later writers They look closely at gender relations masculinity place the nature of community and the elusive American Dream *Off the Map* Fergus Fleming,2007-12-01 A fine and lively collection of exploration stories from the author of Barrow s Boys Kirkus Reviews On John Franklin s 1820 expedition to find the Northwest Passage Michel Teroahaute cannibalized two team members and was preparing a third when he was caught and killed When Rene La Salle set off for the Mississippi Delta in 1684 he missed the target by five hundred miles but on landing immediately built a prison for those who fell asleep on watch Consummate storyteller Fergus Fleming brings together these and forty three other gripping stories spanning three ages of exploration in *Off the Map* *Off the Map* recounts episodes both classic and forgotten The classics are brought to life in more vivid colors than ever before the lesser known stories offer accounts of extraordinary feats that have long lain hidden From the Renaissance golden age of Columbus da Gama and Magellan to the twentieth century heroics of polar explorers such as Peary Scott and Amundsen this is an unforgettable journey into the annals of adventure A first rate one volume introduction to many hair raising stories of exploration The New York Times Each story is short punchy and crammed with facts Fleming possesses an eye for wry detail Adventure There isn t a dud in the lot Adventure reading of a high order brisk fresh and full of color Kirkus Reviews Report Kansas State Board of Health,1925

Round About the North Pole W. J. Gordon,2016-09-30 Among the many books about the Polar regions there is none quite like this dealing with the gradual progress of exploration towards the north along the different areas of advance within the Arctic Circle The subject is always interesting for few regions have been the scene of more persistent effort and exciting adventure and unexpected gains from the unknown particularly in the earlier days when the endeavour to find the northern passages to the east and west led to the beginning of our foreign trade It is often asked What is the use of further Arctic discovery No one knows Nor did any one know the use of most discoveries before they were made When Eric landed in Greenland he was not in search of cryolite for aluminium When Cabral sailed to Porto Seguro he knew nothing of the incandescent gas mantle When Oersted looped the live wire round the magnetic needle he was not bent on founding electrical engineering And when Linn us noticed the sleep of plants he had no intention of providing a substitute for a clock in high latitudes where though vithe sunshine is continuous during the summer the plants within the Circle sleep as in the night time their sleeping leaves telling the traveller that midnight is at hand Men have made up their minds to reach the Pole

and thither they will go What they will find when they get there may not promise to be much but what they have found round about it has been enough to influence considerably the history of the world W J G **Round about the North Pole** William John Gordon,1907 History of Arctic exploration organized regionally *Harmsworth History of the World* Arthur Mee,1907 The Young Folks' cyclopaedia of Persons and Places John Denison Champlin,1927 *Holland* C.
