Handbook of Research on Indigenous Knowledge and Bi-Culturalism in a Global Context Hameed, Shahul, El-Kafafi, Siham, Waretini-Karena, Rawiri, 2019-02-15
Society is continually moving towards global interaction and nations often contain citizens of numerous cultures and backgrounds. Bi-culturalism incorporates a higher degree of social inclusion in an effort to bring about social justice and change and it may prove to be an alternative to the existing dogma of mainstream Europe based hegemonic bodies of knowledge. The Handbook of Research on Indigenous Knowledge and Bi-Culturalism in a Global Context is a collection of innovative studies on the nature of indigenous bodies of knowledge that incorporates the sacred or spiritual influence across various countries following World War II while exploring the difficulties faced as society immerses itself in bi-culturalism. While highlighting topics including bi-cultural teaching, Africology and education empowerment, this book is ideally designed for academicians, urban planners, sociologists, anthropologists, researchers and professionals seeking current research on validating the growth of indigenous thinking and ideas.

The Palgrave Handbook of African Education and Indigenous Knowledge Jamaine M. Abidogun, Toyin Falola, 2020-06-02
This handbook explores the evolution of African education in historical perspectives as well as the development within its three systems: Indigenous, Islamic, and Western education models and how African societies have maintained and changed their approaches to education within and across these systems. African education continues to find itself at once preserving its knowledge while integrating Islamic and Western aspects in order to compete within this global reality. Contributors take up issues and themes of the positioning, resistance, accommodation, and transformations of indigenous education in relationship to the introduction of Islamic and later Western education. Issues and themes raised acknowledge the contemporary development and positioning of indigenous education within African societies and provide understanding of how indigenous education works within individual societies and national frameworks as an essential part of African contemporary society.
