

The Ultimate James Hardie Siding Guide

Everything you need to know about the innovative siding solution - costs, comparisons, contractors, and more...

How Much Does Hardie Siding Cost?

If you Google James Hardie siding costs, you'll find websites (like Angie's List and Modernize) that claim that Hardie board siding costs between \$9-15 or \$8-12 per square foot (installed).

For homeowners, this is exciting to hear, as it isn't that much more expensive than vinyl siding (a far inferior product compared to Hardie's fiber cement).

Unfortunately, if it sounds too good to be true, \$8-12 per square foot is a misleading number, as it includes only the cost of the siding itself and the labor to install it. It doesn't take into

account the other critical parts of a fiber cement siding installation, such as tearing off your existing siding, installing OSB, installing weather barrier, putting up new trim, or painting.

Once you account for these other factors, the real cost of professionally-installed James Hardie siding is significantly higher.

The short and sweet answer is that, once you've taken all cost factors into consideration, James Hardie siding costs around \$18 per square foot.
