The Music of Michael Nyman Pwyll ap Siôn, 2017-07-05 Nyman's rise to international prominence during the last three decades has made him one of the world's most successful living composers His music has nevertheless been criticized for its parasitic borrowing of other composers' ideas and for its relentless self-borrowing In this first book-length study in English Pwyll ap Siôn places Nyman's writings within the general context of Anglo-American experimentalism minimalism and post-minimalism and provides a series of useful contexts from which controversial aspects of Nyman's musical language can be more clearly understood and appreciated Drawing upon terms informed by intertextual theory in general appropriation and borrowing are first introduced within the context of twentieth-century art music and theory Intertextual concepts are explained and their terms defined before Nyman's musical language is considered in relation to a series of intertextual classifications and types These types then form the basis of a more in-depth study of his works during the second half of the book ranging from opera and chamber music to film Rather than restricting style and technique Nyman's intertextual approach on the contrary is shown to provide his music with an almost infinite amount of variety flexibility and diversity and this has been used to illustrate a wide range of technical aesthetic and expressive forms He composes with his ear towards the past as if it were a rich quarry to mine working like a musical archaeologist uncovering artefacts and chiselling fresh and vibrant sonic edifices out of them

Introduction to Post-Tonal Theory Joseph N. Straus, 2016-01-29 Now published by Norton Introduction to Post-Tonal Theory has been thoroughly updated to reflect the latest developments in the field with additional coverage of transformational theory and voice leading The Fourth Edition helps students identify key theoretical points and guides them through the process of analysis while also offering new recently composed musical examples all at an exceptional value

Writing through Music Jann Pasler, 2007-12-12 Drawing on a passion for music a remarkably diverse interdisciplinary toolbox and a gift for accessible language that speaks equally to scholars and the general public Jann Pasler invites us to read as she writes through music unveiling the forces that affect our sonic encounters In an extraordinary collection of historical and critical essays some appearing for the first time in English Pasler deconstructs the social moral and political preoccupations lurking behind aesthetic taste Arguing that learning from musical experience is vital to our understanding of past present and future Pasler's work trenchantly reasserts the role of music as a crucial contributor to important public debates about who we can be as individuals communities and nations The author's wide-ranging and perceptive approaches to musical biography and history challenge us to rethink our assumptions about important cultural and philosophical issues including national identity and postmodern musical hybridity material culture the economics of power and the relationship between classical and

popular music Her work uncovers the self fashioning of modernists such as Vincent d'Indy Augusta Holm's Jean Cocteau and John Cage and addresses categories such as race gender and class in the early 20th century in ways that resonate with experiences today She also explores how music uses time and constructs narrative Pasler's innovative and influential methodological approaches such as her notion of question spaces open up the complex cultural and political networks in which music participates This provides us with the reasons and tools to engage with music in fresh and exciting ways In these thoughtful essays music whether beautiful or cacophonous reassuring or seemingly incomprehensible comes alive as a bearer of ideas and practices that offers deep insights into how we negotiate the world Jann Pasler's *Writing through Music* brilliantly demonstrates how music can be a critical lens to focus the contemporary critical cultural historical and social issues of our time *Journal of Music Theory Pedagogy*, 2003 [Time in Contemporary Musical Thought](#) Jonathan D. Kramer, 2015-12-22 The articles in this collection create an interdisciplinary perspective While attempting no unified vision it approaches the subject from a variety of perspectives aesthetics psychology sociology ethnomusicology compositional practice and semiotics While all composers are necessarily concerned with time and while all theorists deal at least indirectly with music as a temporal phenomenon the study of musical time has been fragmented It is appropriate that no clear paradigm model or direction has yet emerged in the study of musical time since time itself is both pervasive and elusive

Postmodern Music, Postmodern Listening Jonathan D. Kramer, 2016-08-11 Kramer was one of the most visionary musical thinkers of the second half of the 20th century In his *The Time of Music* he approached the idea of the many different ways that time itself is articulated musically This book has become influential among composers theorists and aestheticians Now in his almost completed text written before his untimely death in 2004 he examines the concept of postmodernism in music Kramer created a series of markers by which we can identify postmodern works He suggests that the postmodern project actually creates a radically different relationship between the composer and listener Written with wit precision and at times playfully subverting traditional tropes to make a very serious point about this difference *Postmodern Music Postmodern Listening* leads us to a strongly grounded intellectual basis for stylistic description and an intuitive sensibility of what postmodernism in music entails *Postmodern Music Postmodern Listening* is an examination of how musical postmodernism is not just a style or movement but a fundamental shift in the relationship between composer and listener The result is a multifaceted and provocative look at a critical turning point in music history one whose implications we are only just beginning to understand *Musical America*, 1928 **Music, Politics, and the Academy** Pieter C. van den Toorn, 1996-01-01 Advocates of new musicology claim that technical methods of music analysis are conservative elitist positivist and emotionally arid Pieter C van den Toorn challenges those claims asking why cultural sociopolitical or gender studies approaches to music should be deemed more democratic or expressive of music's content or impact Why should music analysis be thought incapable of serving larger aesthetic ends Van den Toorn confronts Susan McClary Leo Treitler

and Joseph Kerman in particular arguing that hands on music analysis can penetrate the complexity of music and speak to our experience of it He criticizes new musicologists for retreating from issues of musical immediacy by focusing on cultural issues In later chapters van den Toorn defends Schenkerian methods and demonstrates the usefulness of technical analysis in the appreciation of Beethoven Debussy Schoenberg and Stravinsky **The Musical Journal** ,1906 Introduction to Post-tonal Theory Joseph Nathan Straus,2016 **The Musical World** ,1888 **Music Theory and Analysis** Alastair Borthwick,1995 **Bulletin of Information** University of Chicago,1901 *Journal of the American Musicological Society* American Musicological Society,1993 **The Interpretation of Music** Michael Krausz,1993 This volume is concerned with the philosophical presuppositions of musical interpretation The nineteen previously unpublished essays address such interrelated questions as the nature of musical interpretation in relation to works or music whether works of music are fully embodied in scores how strictly all markings of a score should be respected what pertinence historical research has for musical interpretation and how decisive the known or reconstructed intentions of a composer should be The contributors investigate the aesthetic cultural and historical aspects of musical interpretation and their relation to interpretation in other human practices In addition they investigate such fundamental distinctions as those between musical and non musical phenomena and between musical and linguistic meaning American Book Publishing Record ,2003
