Fusing Decision Support Systems Into the Fabric of the Context A. Respício, F. Burstein, 2012-06-13 The field of Information Systems has been shifting from an immersion view which relies on the immersion of information technology IT as part of the business environment to a fusion view in which IT is fused within the business environment forming a unified fabric that integrates work and personal life as well as personal and public information In the context of this fusion view decision support systems should achieve a total alignment with the context and the personal preferences of users The advantage of such a view is an opportunity of seamless integration between enterprise environments and decision support system components Thus researchers and practitioners have to address the challenges of dealing with this shift in viewpoint and its consequences for decision making and decision support systems theories and applications This book presents the latest innovations and advances in decision support systems with a special focus on the fusion view These achievements will be of interest to all those involved and interested in decision making practice and research as well as more generally in the fusion view of modern information systems The book covers a wide range of topical themes including a fusion view of business intelligence and data warehousing applications of multi criteria decision analysis intelligent models and technologies for decision making knowledge management decision

support approaches and models for emergency management and medical and other specific domains **A Primer for Unit Root Testing** K. Patterson,2010-03-31 This book gives an authoritative overview of the literature on non stationarity integration and unit roots providing direction and guidance It also provides detailed examples to show how the techniques can be applied in practical situations and the pitfalls to avoid **Advanced Research Methods in the Built Environment** Andrew Knight,Les Ruddock,2009-03-16 This book provides a bridge between the introductory research methods books and the discipline specific higher level texts Its unique feature is the coverage of the detailed process of research rather than the findings of research projects Chapter authors have been carefully selected by their expertise discipline and location to give an eclectic range of perspectives Particular care has been taken to balance positivist with interpretivist approaches throughout The authors focus is on the practical consequences of research philosophies strategies and techniques by using their own research and by evaluating the work of others Advanced Research Methods in the Built Environment addresses common topics raised by postgraduate level researchers rather than dealing with all aspects of the research process Issues covered range from the practicalities of producing a journal article to the role of theory in research The material brought together here provides a valuable resource for the training and development of doctoral and young researchers and will contribute to a new sense of shared methodological understanding across built environment research *The First Annual Conference of Economic Forum of Entrepreneurship & International Business* Ghada Gomaa A.
