Ubik Philip K. Dick, 1952 1992 Humanity now enjoys a range of psychic abilities Glen Runciter runs his own organization employing inertials those capable of blocking telepathic and precognitive waves to enforce people's privacy When he and a hand-picked team travel to the moon in order to secure a business magnate's lunar facilities they walk straight into an explosive trap And now Runciter is dead Or is he SOMEONE died in the bomb blast But his mourning employees are receiving bewildering messages from him And the world around them is warping and regressing in ways which suggest that their own time is running out

Ubik Philip K. Dick, 2012-04-17 Named one of Time's 100 Best Books *Ubik* is a mind-bending classic novel about the perception of reality from Philip K Dick the Hugo Award-winning author of *The Man in the High Castle* From the stuff of space opera Dick spins a deeply unsettling existential horror story a nightmare you'll never be sure you've woken up from Lev Grossman Time Glen Runciter runs a lucrative business deploying his teams of anti-psychics to corporate clients who want privacy and security from psychic spies But when he and his top team are ambushed by a rival he is gravely injured and placed in half-life a dreamlike state of suspended animation Soon though the surviving members of the team begin experiencing some strange phenomena such as Runciter's face appearing on coins and the world seeming to move backward in time As consumables deteriorate and technology gets ever more primitive the group needs to find out what is causing the shifts and what a mysterious product called *Ubik* has to do with it all More brilliant than similar experiments conducted by Pynchon or DeLillo Roberto Bolaño

[Worlds and Selves Falling Apart - The Science Fiction of Philip K. Dick](#) Markus Widmer, 2007-07-29 Swiss Diploma Thesis from the year 2000 in the subject American Studies Literature grade 1.5 A University of Zurich English Seminar 77 entries in the bibliography language English abstract Philip K Dick's science fiction can be seen as a discussion of the human condition in a world where nothing is what it seems Human identity has become uncertain as has the nature of reality itself This Dickian ontology has a striking similarity to postmodernist theories by thinkers such as Jameson Baudrillard and McHale most of whom by the way have a weak spot for science fiction The discussion of Philip K Dick's novels and short stories against a backdrop of postmodernist theory leads to conclusions that are not only relevant for the author's particular poetics but for the ontology of our lives in times that science fiction couldn't have imagined This work focusses on Philip K Dick's unstable worlds and subjects investigating Dickian space-time and meaning as well as the author's subjects and the question of schizophrenia and paranoia Works discussed include *Ubik* *Time Out of Joint* *The Man in the High Castle* *A Maze of Death* *Eye in the Sky* *A Scanner Darkly* *Martian Time Slip* and *Impostor*

Consciousness and Science Fiction Damien Broderick, 2018-11-30 Science fiction explores the wonderful baffling and wildly entertaining aspects of a universe unimaginably old and vast and with a future even more immense It reaches into that endless cosmos with the tools of rational investigation and storytelling At the core of both science and science fiction is the engaged human mind a consciousness that sees and feels and thinks and loves But what is this mind this aware and self aware consciousness that seems unlike anything else we experience What makes consciousness the Hard Problem of philosophy still unsolved after millennia of probing This book looks into the heart of this mystery at the science and philosophy of consciousness and at many inspiring fictional examples and finds strange challenging answers The book's content and entertaining style will appeal equally to science fiction enthusiasts and scholars including cognitive and neuroscientists as well as philosophers of mind It is a refreshing romp through the science and science fiction of consciousness
