A Guide to Evidence-Based Group Work Mark J. Macgowan, 2008-02-12

Organized logically around the process and philosophy of evidence-based practice, the text develops a four-stage sequence in which group workers formulate a practice question, search for evidence, undertake a critical review of the evidence, and apply the evidence with judgment, skill, and concern for relevance and appropriateness, utilizing evaluation to determine if desired outcomes are achieved. The evidence-based framework teaches students how to apply best practices through a wealth of case examples, checklists, assessment tips, and clear instructions for formulating questions and evaluating answers.
