Mastering the Requirements Process Suzanne Robertson, James Robertson, 2013 Mastering the Requirements Process Getting Requirements Right sets out an industry proven process for gathering and verifying requirements regardless of whether you work in a traditional or agile development environment In this sweeping update of the bestselling guide the authors show how to discover precisely what the customer wants and needs in the most efficient manner possible

Requirement Engineering for Knowledge-Intensive Processes Sven-Michael Wundenberg, 2015-01-23 Sven Michael Wundenberg discusses the development of a reference architecture for the Learning Management System's LMS selection process aimed at the system's implementation in a polytechnic knowledge transfer organization. The focus lies on the requirement engineering RE process's quintessence based on research about standard RE procedures and approaches combined with LMS basic knowledge and LMS best practice experiences. The resulting reference architecture, particularly its frameworks and questionnaires, are tested prototypically in the real-life instance of a polytechnic school, the Technikerschule Augsburg TA, and delivers outstanding results.

Automated Software Testing Elfriede Dustin, Jeff Rashka, John Paul, 1999. A guide to the various tools, techniques, and methods available for automated testing of software under development. Using case studies of successful industry implementations, the book describes the incorporation of automated testing into the development process. In particular, the authors focus on the Automated Test Lifecycle Methodology, a structured process for designing and executing testing that parallels the Rapid Application Development methodology commonly used.
