The Information Specialist's Guide to Searching and Researching on the Internet and the World Wide Web

Ernest Ackermann, Karen Hartman, 2014-06-11 Written by a professor of computer science and a reference librarian this guide covers basic browser usage e mail and discussion groups discusses such Internet staples as FTP and Usenet newsgroups presents and compares numerous search engines and includes models for acquiring evaluating and citing resources within the context of a research project The emphasis of the book is on learning how to create search strategies and search expressions how to evaluate information critically and how to cite resources All of these skills are presented as within the context of step by step activities designed to teach basic Internet research skills to the beginner and to hone the skills of the seasoned practitioner

Learning from Data Doug Fisher, Hans-J. Lenz, 2012-12-06 Ten years ago Bill Gale of AT T Bell Laboratories was primary organizer of the first Workshop on Artificial Intelligence and Statistics In the early days of the Workshop series it seemed clear that researchers in AI and statistics had common interests though with different emphases goals and vocabularies In learning and model selection for example a historical goal of AI to build autonomous agents probably contributed to a focus on parameter free learning systems which relied little on an external analyst s assumptions about the data This seemed at odds with statistical strategy which stemmed from a view that model selection methods were tools to augment not replace the abilities of a human analyst Thus statisticians have traditionally spent considerably more time exploiting prior information of the environment to model data and exploratory data analysis methods tailored to their assumptions In statistics special emphasis is placed on model checking making extensive use of residual analysis because all models are wrong but some are better than others It is increasingly recognized that AI researchers and or AI programs can exploit the same kind of statistical strategies to good effect Often AI researchers and statisticians emphasized different aspects of what in retrospect we might now regard as the same overriding tasks
