Migration at Work Fiona-Katharina Seiger, Christiane Timmerman, Noel B. Salazar, Johan Wets, 2020-09-25 The willingness to migrate in search of employment is in itself insufficient to compel anyone to move The dynamics of labour mobility are heavily influenced by the opportunities perceived and the imaginaries held by both employers and regulating authorities in relation to migrant labour This volume offers a multidisciplinary approach to the study of the structures and imaginaries underlying various forms of mobility Based on research conducted in different geographical contexts including the European Union Turkey and South Africa and tackling the experiences and aspirations of migrants from various parts of the globe the chapters comprised in this volume analyse labour related mobilities from two distinct yet intertwined vantage points the role of structures and regimes of mobility on the one hand and aspirations as well as migrant imaginaries on the other Migration at Work thus aims to draw cross contextual parallels by addressing the role played by opportunities in mobilising people how structures enable sustain and change different forms of mobility and how imaginaries fuel labour migration and vice versa In doing so this volume also aims to tackle the interrelationships between imaginaries driving migration and shaping regimes of mobility as well as how the former play out in different contexts shaping internal and cross border migration Based on empirical research in various fields this collection provides valuable scholarship and evidence on current processes of migration and mobility

Melting Pot or Civil War? Reihan Salam, 2018-09-25 Long before Covid 19 and the death of George Floyd rocked America Reihan Salam predicted our current unrest and provided a blueprint for reuniting the country The years to come may see a new populist revolt driven by the resentments of working class Americans of color For too long liberals have suggested that only cruel racist or nativist bigots would want to restrict immigration Anyone motivated by compassion and egalitarianism would choose open or nearly open borders or so the argument goes Now Reihan Salam the son of Bangladeshi immigrants turns this argument on its head In this deeply researched but also deeply personal book Salam shows why uncontrolled immigration is bad for everyone including people like his family Our current system has intensified the isolation of our native poor and risks ghettoizing the children of poor immigrants It ignores the challenges posed by the declining demand for less skilled labor even as it exacerbates ethnic inequality and deepens our political divides If we continue on our

current course in which immigration policy serves wealthy insiders who profit from cheap labor and cosmopolitan extremists attack the legitimacy of borders the rise of a new ethnic underclass is inevitable Even more so than now class politics will be ethnic politics and national unity will be impossible Salam offers a solution if we have the courage to break with the past and craft an immigration policy that serves our long term national interests Rejecting both militant multiculturalism and white identity politics he argues that limiting total immigration and favoring skilled immigrants will combat rising inequality balance diversity with assimilation and foster a new nationalism that puts the interests of all Americans native born and foreign born first
