International Handbook of AI Law Matthias Artzt, Oliver Belitz, Simon Hembt, Nils Lölfing, 2024-12-03 In recent years, the field of Artificial Intelligence (AI) has seen remarkable advances, revolutionizing how we live, work, and interact with technology. As AI systems grow increasingly sophisticated and autonomous, they raise new and challenging legal questions, particularly regarding AI-specific risks associated with automated systems. This indispensable handbook, written in clear language by international experts from all over the world, sheds light on the complex relationship between AI and the law, covering both existing laws and emerging AI-specific legal regulations. Beginning with a comprehensive and insightful technical analysis of how AI works, subsequent chapters cover a wide array of legal fields relevant to AI technology, focusing on the legal framework in the EU, including the following topics: the EU AI Act, AI-specific Liability and Product Safety, Data Protection, Data Law, Intellectual Property, Contracting, Antitrust, Criminal Law, Cybersecurity, Employment Law, and Legal Tech. The book concludes with country reports on the legal and regulatory environment in the United Kingdom, the United States, China, and Japan, contrasting them with the EU legal framework. Each chapter offers practical advice for implementing legal principles, making the handbook a valuable resource for real-world

applications It is an essential guide for practitioners policymakers academics and others seeking a deep understanding of the complex legal challenges posed by AI use The handbook aids in responsible and trustworthy AI development and use by guiding decision making reducing risks and protecting the rights and well being of individuals and society *Keeping Us Engaged Online* Christine Harrington,2025-06-13 Building from the success of *Keeping Us Engaged* and dedicated fully to online teaching this book centers student perspectives on instructional strategies to maximize engagement and increase virtual learning By pairing stories from 50 students with the most up to date research on online instruction readers will discover easy to implement strategies to help online students develop a sense of belonging inclusion and academic confidence Ranging from topics such as welcome messages and assignment feedback to synchronous and asynchronous discussions these firsthand student narratives validate and inform faculty practices while inspiring readers to adapt individual techniques to their own online realities Each chapter is accompanied by insightful reflection prompts ideal for individual use or as discussion points for faculty book groups and professional development workshops Masterfully founded in student centered active learning principles and endorsed by the learners themselves this book is a springboard for all faculty looking to engage students online **Artificial Intelligence and International Conflict in Cyberspace** Fabio Cristiano,Dennis Broeders,François Delerue,Frédéric Douzet,Aude Géry,2023-05-11 This edited volume explores how artificial intelligence AI is transforming international conflict in cyberspace Over the past three decades cyberspace developed into a crucial frontier and issue of international conflict However scholarly work on the relationship between AI and conflict in cyberspace has been produced along somewhat rigid disciplinary boundaries and an even more rigid sociotechnical divide wherein technical and social scholarship are seldomly brought into a conversation This is the first volume to address these themes through a comprehensive and cross disciplinary approach With the intent of exploring the question what is at stake with the use of automation in international conflict in cyberspace through AI the chapters in the volume focus on three broad themes namely 1 technical and operational 2 strategic and geopolitical and 3 normative and legal These also constitute the three parts in which the chapters of this volume are organised although these thematic sections should not be considered as an analytical or a disciplinary demarcation This book will be of much interest to students of cyber conflict AI security studies and International Relations The Open Access version of this book is available for free in PDF format as Open Access from the individual product page at www.routledge.com It has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license **Keeping Us Engaged** Christine Harrington,2025-03-20 This revised edition of *Keeping Us Engaged* centers on in classroom instruction offering fresh student perspectives on how faculty can maximize engagement when teaching in person Harrington expertly pairs all new student narratives a signature feature of this much loved volume with easy to implement strategies that faculty can use to shift perspectives strengthen connections with course material and deepen learning Topics range from starting positive on the

first day of class to developing authentic assignments that push boundaries and giving compassionate constructive feedback among other key areas Each chapter is accompanied by sharply perceptive reflection prompts ideal for individual use or in faculty book groups and professional development workshops Firmly grounded in active learning principles and enthusiastically endorsed by the learners themselves this book is an essential resource for all faculty looking to better engage students in traditional face to face classroom instruction
