[An Introduction to Agricultural Engineering](#) Harry L. Field, Lawrence O. Roth, 1992-02-29 Widely used in its first edition, this book introduces readers to the basic principles involved in agricultural engineering and the major problems inherent in managing land and mechanical devices, the two biggest resources in any agricultural enterprise. For a wide range of topics, the second edition examines basic principles and technical information and then presents typical problems along with recommended solutions.

An Introduction to Agricultural Engineering: A Problem-Solving Approach Harry Field, 1991-12-15 This book is for use in introductory courses in colleges of agriculture and in other applications requiring a problem-solving approach to agriculture. It is intended as a replacement for *An Introduction to Agricultural Engineering* by Roth, Crow, and Mahoney. Parts of the previous book have been revised and included, but some sections have been removed and new ones added. Problem solving has been expanded to include a chapter on techniques and suggestions are incorporated throughout the example problems. The topics and treatment were selected for three reasons: 1. to acquaint students with a wide range of applications of engineering principles

to agriculture 2 to present a selection of independent but related topics and 3 to develop and enhance the problem solving ability of the students Each chapter contains educational objectives introductory material example problems where appropriate and sample problems with answers that can be used for self assessment Most chapters are self contained and can be used independently of the others Those that are sequential are organized in a logical order to ensure that the knowledge and skills needed are presented in a previous chapter As principal author I wish to express my gratitude to Dr Lawrence O Roth for his contributions of subject matter and guidance I also wish to thank Professor Earl E Baugher for his expertise as technical editor and my wife Marsha for her help and patience
