

European Code of Practice For Feed Additive and Premixture Operators

INTRODUCTION

This European Code of Practice for Animal Feed Additive and Premixture Operators ('Code') responds to the Regulation of the European Parliament and the Council laying down requirements for feed hygiene, (183/2005/EC), articles 20 to 22 of which encourage the development of guides to good practice for hygiene and the application of HACCP principles.

Implementation of the code aims to ensure the safety of feed additives and premixtures, the operation of businesses in accordance with European feed hygiene requirements, and improved traceability. The code also applies to import from third countries of feed additives and premixtures.

In order to align the Code with current animal feed legislation and various activities on national, industrial and/or association levels, it takes into account the principles of feed and food safety as well as HACCP principles that are set out in:

- The European Commission's White Paper on Food Safety (COM (1999) 719 final)
- European Council Directives 95/69/EEC and 98/51/EEC. (Laying down conditions and arrangements for approving and registering establishments and intermediaries in the animal feed sector).
- Regulation of the European Parliament and of the Council on additives for use in animal nutrition. (1831/2003/EC).
- Regulation of the European Parliament and of the Council of 28 January 2002 laying down the general principles and requirements of food law, establishing the European Food Safety Authority. (178/2002/EC).
- Regulation of the European Parliament and of the Council laying down requirements for feed hygiene. (183/2005/EC).
- The relevant codes of practice of the Codex Alimentarius.
- The principles of HACCP, re. Codex Alimentarius, General principles of Food Hygiene, (CAC/RCP 1-1969, Rev. 4-2003 Amd. (1999), Annex on Hazard Analysis and Critical Control Point (HACCP) System and Guidelines for its Application), <http://www.codexalimentarius.net/>.
- Management systems developed by associations in different Member States, for instance: Code of Practice (FEFAC, EU), FEMAS (AIC, UK), GMP (OVOCOM, B), GMP+ (PDV, NI), Q+S (DVT, D).

The combination of the above principles provides guidance for feed additive and premixture operators in implementing the measures necessary to ensure feed safety in European and international manufacturing and trade. In order to facilitate implementation of the Code, the structure of ISO 9001:2000, Quality Management Systems, is used.
