Competency-Based Education in Aviation Suzanne K. Kearns, Timothy J. Mavin, Steven Hodge, 2017-05-15 Whether a trainee is studying air traffic control piloting maintenance engineering or cabin crew they must complete a set number of training hours before being licensed or certified The aviation industry is moving away from an hours based to a competency based training system Within this approach training is complete when a learner can demonstrate competent performance Training based on competency is an increasingly popular approach in aviation It allows for an alternate means of compliance with international regulations which can result in shorter and more efficient training programs However there are also challenges with a competency based approach The definition of competency based education can be confusing training can be reductionist and artificially simplistic professional interpretation of written competencies can vary between individuals and this approach can have a high administrative and regulatory burden **Competency Based Education in Aviation Exploring Alternate Training Pathways** explores this approach to training in great detail considering the four aviation professional groups of air traffic control pilots maintenance engineers and cabin crew Aviation training experts were interviewed and have contributed professional insights along with personal stories and anecdotes associated with competency based approaches in their fields Research based and practical strategies for the effective creation delivery and assessment of competency based education are described in detail **Redefining Competency Based Education** Nina Jones

Morel, Bruce Griffiths, 2018-09-19 **Redefining Competency Based Education** provides an expanded definition of career competence based on actual employer hiring and promotion requirements which enhances university curricula to better prepare students for work and life Readers will learn how private sector competency models have evolved to define criteria for hiring promoting and training talent The authors contrast these models with classic university practices to document a historic academic preference for technical preparation over the so called soft skills valued by employers This book outlines techniques for measuring and developing soft skills that provide significant advantage in career success and shares examples

of universities that have successfully implemented these concepts Illinois Competency Based Education Programs and the Employment and Training Community ,1984 *Exploring Competency Based Education* W. Robert Houston,1974
